

**HOUSE BILL 154: SUMMARY OF CHANGES
FROM VERSION A TO VERSION S (ENE)**

Formatting:

Legislative Legal Services redrafted House Bill 154 to comply with the provisions of the Legislative Drafting Manual. Aside from grammatical changes, the only significant formatting provision was in Section 4, where some language from subsection 4(a) was lifted and given its own subsection, 4(d). There were no substantive changes to the language of the bill as a result of the formatting from legislative legal services.

Substantive:

One substantive change was made in the House Special Committee on Energy Committee Substitute. An immediate effective date was inserted into the bill, which is in Section 6.
