### MEMORANDUM

Senator Lyman Hoffman

Co-Chairs, Senate Finance Committee

**FROM:** Alexei Painter

A handwritten signature in blue ink, appearing to be "AP" followed by a stylized flourish.

**SUBJECT:** Responses to Committee Questions from January 24 Meeting

Thank you for inviting the Legislative Finance Division to present an overview of the State's fiscal situation and the Governor's FY25 budget. Responses to questions and requests for follow-up information from the committee hearing are below.

**Senator Hoffman asked about how other large funds handle inflation proofing.**

Alaska's two-account system is unusual for large funds of its type; most have a single account with a spending rule (which may be based on a POMV like Alaska's, or other rules).

We could find one example that is comparable to the Alaska Permanent Fund's structure. The North Dakota Legacy Fund has a similar constitutional structure, where earnings may be spent by the legislature, but the principal is protected (although it can be spent with a two-thirds vote of the legislature). Inflation-proofing for that fund is subject to appropriation each biennium; there are no rules for inflation-proofing.

**Senator Stedman asked for a historical comparison of production by field.**

See the table below.
