## NEED FOR REPLACEMENT

- Current Seward dock facility is rapidly approaching end of useful life
- Seward cruise port is critical infrastructure for Alaska's travel industry: 188,124 passengers cruised to or from Seward in 2023, many adding on travels in Southcentral and Interior

## FUNDING & TIMELINE

**2022:** \$60 million in bond authorization approved

**2024:** Requesting additional \$75 million bond authorization

**Fall 2025:** Construction begins

**Spring 2026:** New dock and terminal complete

Bonds issued by ARRC are not a liability of the state, and no state dollars will be used for repayment; ARRC bonds will be secured by a long-term use agreement with anchor tenant Royal Caribbean Group.

The new dock and terminal facility will support the next 50 years of industry growth and visitor demand.
