Division: Health Care Services	Date: 01/12/2024 02:57 PM
Approved By: Josie Stern, Assistant Commissioner	Date: 01/15/24
Agency: Department of Health	

FISCAL NOTE ANALYSIS

STATE OF ALASKA
2024 LEGISLATIVE SESSION

BILL NO. SB116

Analysis

This bill directs the Board of Licensed Professional Counselors to stipulate, through regulations, the criteria for associate counselor licensure; the types of associate counselor programs that are authorized for licensure; and the criteria for supervisor certification.

This legislation is expected to have an impact on Medicaid provider enrollment and compliance functions. The additional licenses are expected to increase volume and the level of effort to process new enrollment applications, revalidations, and background checks. In addition, Health Care Services anticipates an increased number of new applicants in out years due to this new license type. Post-payment review of services to ensure compliance with state and federal rules will need to be conducted; including establishing new review strategies within the Surveillance and Utilization Review (SUR) unit and working with current data-analytics vendors to develop compliance strategies and peer group comparison algorithms.

Should this bill pass, the Division of Health Care Services will need to amend regulations to add a new professional provider type. Medicaid Management Information System configuration to add the new provider type will also be necessary and can be absorbed through existing contract maintenance and operations.

The Division of Health Care Services, located within the Department of Health, is submitting a zero dollar fiscal note for this bill. The division does not have estimates for the number of individuals in Alaska that will become or are currently eligible to be licensed associate counselors.
