

To whom it may concern,

I support House bill 363- It is a start on reforming OCS- Next year I would like to see more-The Alaska OCS system is currently a broken system- and there is no accountability for criminal activities that OCS cause towards Alaska's children-or their families-Mine were taken from me-and one was sexually assaulted 2x and another saw an OD while in states care-No one is watching over this system-and those that claim they are are working ALSO for the State of Alaska-I see major conflict of interest in this-The courts are ALL paid by the State of Alaska- I'am also concerned that the many NONPROFIT facilities that take in Alaska's children are also drugging up our kids--I was a safe home-a loving home-yet still OCS stole them..Now my grandchild that was raped is in Utah-Copperhills facility-Where he is being drugged and also was beaten by other kids in that facility-THERE NEEDS TO BE put in place where OCS can be held accountable for their crimes against Alaska's children..

Sincerely,
Cindy Germain
