FISCAL NOTE ANALYSIS

STATE OF ALASKA
2024 LEGISLATIVE SESSION

Analysis

This bill addresses state-regulated private insurance and requires those plans that include coverage of breast diagnostic imaging tests to do so without patient cost sharing. The language applies this treatment to preventive screenings and both diagnostic exams (when an abnormality is found in the breast) and supplemental exams. These exams are the step between screening mammography and biopsy.

The Division of Insurance does not anticipate fiscal impact from this legislation.
