FISCAL NOTE ANALYSIS

STATE OF ALASKA
2023 LEGISLATIVE SESSION

BILL NO. HB 109

Analysis

Background Tax Division

Under current law, C-corporations are subject to ten graduated tax brackets with tax rates ranging from zero to 9.4 percent. This bill would remove the graduated tax rates above two percent, leaving a rate of zero for taxable income of less than \$25,000 and a rate of 2 percent for taxable income of \$25,000 or more.

Revenue Impact

This bill would reduce corporate income tax revenue by \$169.0 in FY 2024, which assumes the current tax structure would be effective for half of the fiscal year and the new structure for the second half of the year. Regulations would need to be drafted to detail how the taxable income should be accounted for in each half of the year. The first full fiscal year impact would be in FY 2025 with a reduction of \$328.0 in revenue.

Implementation Cost

This bill would require the Department to update its Tax Revenue Management System (TRMS) and Revenue Online (ROL) which allows a taxpayer to file a return online. The update would consist of reprogramming both systems, updating the return rules in TRMS and testing both systems thoroughly to verify that they function as expected. We would also need to update the current tax return forms. However, this bill would not require the Department of Revenue to make material changes to TRMS. Therefore, there would be no cost to the Department of Revenue for implementation.
