Subject: Oppose Senate Bill 144 and House Bill 233

Dear Representative Kevin McCabe,

I urge you to oppose Senate Bill 144 and House Bill 233. This legislation would increase warranty repair payments for auto dealers from auto manufacturers. Considering dealers already enjoy high profits on warranty repairs, this will only serve to drive up costs for consumers on new vehicles.

Proponents claim it will enhance technicians' pay, yet the legislation does not mandate any such increase. Instead, it would pad the profits of wealthy dealers at the expense of Alaskans.

I am calling on leaders in Juneau to oppose this legislation and protect consumers.

Sincerely,
Ms Laurie Cartwright
