FISCAL NOTE ANALYSIS

STATE OF ALASKA
2025 LEGISLATIVE SESSION

BILL NO. HB064

Analysis

This legislation provides for immunity from prosecution for a parent who abandons an infant to an infant safety device and identifies requirements for facility where the infant safety device is located, i.e., the designated facility, and for the receiving staff member of the designated facility.

This legislation will require Health Care Services, specifically, the Health Facilities Licensing and Certification component, to develop regulations for facilities that elect to serve as a surrender location; oversee compliance of facilities that elect to serve as a surrender location; and implement changes to survey procedures and requirements to ensure that facilities train staff, have a response plan, and maintain the infant safety device in accordance with manufacturer standards.

These facilities are already inspected; this addition to surveys and the associated regulations costs can be absorbed.
