FISCAL NOTE ANALYSIS

STATE OF ALASKA
2025 LEGISLATIVE SESSION

BILL NO. HB 105

Analysis

HB105 directs local school boards to work with school faculty and parents to develop a policy that would provide parents notification at least two weeks before any class or program that provides instruction in mental health. This bill furthers modifies AS 14.30.360 to include mental health curricula in their current health education programs.

The State Board of Education would be required to establish guidelines surrounding these curricula with consultation with the Department of Health, the Department of Family and Community Services, regional tribal health organizations, and representatives of national and state mental health organizations. The Department of Family and Community Services would be required when called upon to provide technical assistance to school districts in developing the curricula mentioned previously. Lastly this bill requires that the Board of Education and Early Development submit a report to the legislature that includes a copy of the guidelines developed, and describing the process the Board used to develop the guidelines.
