Chapter No.

65

## AN ACT

Relating to oil and gas leases; and providing for an effective date.

### BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

\* Section 1. AS 38.05.180(a) is amended to read:

(a) All tide and submerged lands, mental health lands, school lands, and university lands shall be leased by competitive bidding, and whenever oil or gas is discovered in commercial quantities, the commissioner shall determine the extent of the area of lands in addition to tide, submerged, mental health lands, school, or university lands in the same general area of the discovery well which, by reason of the discovery, the commissioner reasonably believes to be capable of producing oil or gas, and the additional lands shall be leased to the highest responsible qualified bidder by competitive bidding under general regulations, in units of not exceeding 2,560 acres (except that tide and submerged lands shall be leased in units of not exceeding 5,760 acres), which shall be as nearly compact in form as possible, upon the payment by the lessee of such bonus as may be accepted by the commissioner and of such royalty as may be fixed in the lease which shall not be less than 12 1/2 per cent in amount or value of the production removed or sold from the lease. All lands other than those above provided to be leased by competitive bidding may be leased competitively or noncompetitively as determined by the commissioner to be in the best interests of the state. Noncompetitive leases shall be issued in units of not exceeding 2,560 acres in any one lease. Noncompetitive leases shall be conditioned upon the payment by the lessee of a royalty of 12 1/2 per cent in amount or value of the production removed or sold from the lease. Competitive leases issued under this subsection shall be for 10 years except that in the Cook Inlet sedimentary

basin, leases shall be for a primary term of not more than 10 years and not less than five years at the discretion of the commissioner, and shall continue so long thereafter as oil or gas is produced in paying quantities. Noncompetitive leases issued under this subsection shall be for a primary term of five years and shall continue so long thereafter as oil or gas is produced in paying quantities. If drilling has commenced on the expiration date of the primary term of the lease and is continued with reasonable diligence, such operations to include redrilling, sidetracking or other means necessary to reach the originally proposed bottom hole location, the lease shall continue in effect until 90 days after drilling has ceased and for so long thereafter as oil or gas is produced in paying quantities. If all or part of the lands covered by the lease are lands that have been selected by the state under laws of the United States granting lands to the state and a patent has not been issued thereon, a conditional lease may be issued. However, no term extension may be granted for the period during which the lease was conditional.

\* Sec. 2. This Act takes effect on the day after its passage and approval or on the day it becomes law without approval.
