## SENATE CONCURRENT RESOLUTION NO. 1

Relating to educational television.

\*\*\*\*\*

### BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:

WHEREAS educational television has the potential for providing most remote villages with timely and relevant programming of the quality received by larger communities; and

WHEREAS the Columbia Broadcasting System has recently developed a seemingly simple and inexpensive means of providing both educational and entertainment closed-circuit television called "Electronic Video Recording" (E.V.R.); and

WHEREAS adoption of this system by the state would appear to be one effective means of greatly enhancing the educational standards and materials of the smaller and more remote villages;

BE IT RESOLVED that the Governor is respectfully requested to direct the Department of Education, in conjunction with other appropriate state agencies, to investigate the feasibility and probable costs of installing the E.V.R. system as an educational tool in those communities without television reception capabilities, and of establishing a central E.V.R. "mailing library" program under the auspices of the Department of Education.
