### BE IT RESOLVED

#### BY THE LEGISLATURE OF THE STATE OF ALASKA:

WHEREAS a priority of the state is to insure the maximum utilization of higher education facilities for the greatest benefit of its citizens; and

WHEREAS the policy of the state should be to afford all Alaskans the opportunity to pursue their education at the lowest possible cost; and

WHEREAS Alaska benefits at present from a diversity of programs through fully accredited higher educational institutions including those both publicly and privately sponsored; and

WHEREAS limited financial resources indicate the need for coordination of all available higher education programs in order to minimize needless duplication of courses and programs and to reduce costs while at the same time offering citizens of Alaska quality education in the fields of their choice;

BE IT RESOLVED by the Alaska Legislature that the Legislative Council contract with a nationally recognized higher education consulting firm to study the laws, policies, programs and facilities relating to higher education in Alaska, with the purpose of making recommendations to the Seventh Legislature, Second Session, to insure the fullest utilization of our higher education institutions at the lowest reasonable cost consistent with provision of maximum educational opportunities.
