HOUSE CONCURRENT RESOLUTION NO. 47

Relating to National Engineers Week.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:

WHEREAS the engineering profession will celebrate National Engineers Week, February 18 - 24; and

WHEREAS engineering is the profession in which a knowledge of the mathematical and physical sciences gained by study, experience and practice is applied with judgment to develop ways to utilize economically the materials and forces of nature for our progressive well-being; and

WHEREAS all people are aware of the important role of engineers in creating, improving, and protecting the environment; and

WHEREAS it is of equal common knowledge that the engineering profession has and continues to provide mankind with the facilities for community living, industry, and transportation as well as aiding tremendously in the development of structures for the utilization by all citizens of the world; and

WHEREAS the immediate years ahead will see yet further challenges to the ingenuity and expertise of the technical community regarding innovations required to protect and enhance our physical environment as well as meeting our human needs;

BE IT RESOLVED that the Alaska Legislature salutes and commends the engineering profession and states its belief that the profession's focus for the coming year, "A Better Environment through Technology," is indeed appropriate and reflects the same sensitivity that has characterized the profession in all of its

past accomplishments and the Legislature affirms its faith in the continued leadership and direction by the profession and its individual members as a stronger and more vital society is ever pursued.

COPIES of this resolution shall be sent to all professional engineering societies in Alaska.
