HB 454 cont'dLETTER OF INTENT  
FOR  
SCS CSHB NO. 454 (SA)

It is the intent of the Senate State Affairs Committee in adopting the SCS FOR CSHB 454 (SA) that Sections 1, 2, and 3 of the bill comply with the initiative relating to the compensation for state legislators. These sections are included in HB 454 to bring into one measure related matters pertaining to compensation of state officers.

Some drafting changes were made to conform language of the proposed legislation to existing statutes and to correct errors; e.g., Section 1 of the bill vs. Section 2 of the initiative.

A minor change is made in compensation of legislators performing official duties while the legislature is not in session. The initiative provides that actual expenses be reimbursed in lieu of per diem. The bill provides that per diem be paid, as was the practice at the time when the salary of legislators was the same as that set forth in Section 2 of the initiative: provision of per diem, regardless of disincentives to carrying out legislative work, to economizing on expenses, and to using low cost modes of travel and accommodations. The purpose of these revisions in the per diem language is to assure that legislators will be properly compensated for the performance of their constitutional duties and to avoid excessive individual expenses.

Both Section 3 of the initiative and HB 454 provide for a report covering legislator's compensation to be made by the legislative fiscal officer. Under the initiative, the report is to be filed with the Office of Management and Budget in the Governor's Office. The Committee believes that such filing would be transgressing on the separation of power between the legislative and executive branches. Therefore, SCS CSHB 454 (SA) provides that the report be filed with the Legislature's Fiscal Office. The basic purpose of the initiative -- providing a report available to the public -- is maintained under this minor change.

Opinion from James L. Baldwin, Assistant Attorney General;  
Department of Law, April 3, 1986:

Re: Proposed amendments to  
legislative pay raise  
Our file: 663-86-0431

You requested our advice concerning amendments to  
the material contained in the legislative pay raise

HB 454 cont'd

initiative. You propose to include the wording of the initiative as amended in two instances in a bill which would also include the provisions of HB 48 and HB 454. You are concerned that these amendments will be considered to conflict with the provisions of the legislative pay raise initiative. In which case the pay raise question will be put to the voters.

You propose to amend sec. 24.15.010(d) of the initiative measure, which provides:

(d) When the legislature is not in session, instead of receiving per diem a legislator is entitled to be reimbursed for actual expenses incurred while he is on committee business for an interim committee of the legislature in a place which is not his place of permanent residence.

The second amendment proposes the substitution of the legislative fiscal officer as the custodian of expense voucher reports in the second to the last sentence of proposed sec. 24.15.040. Under the initiative, the office of management and budget is the custodian of voucher reports. The section as amended reads as follows:

The Legislative fiscal officer shall, by January 31 of each calendar year, file with the legislature's fiscal office [OFFICE OF MANAGEMENT AND BUDGET] a report of all vouchers approved for payment pursuant to this section during the preceding calendar year. The report shall provide, by legislator, the date of each voucher, the amount paid and the basis for approval for payment.

You asked if the filing of legislative pay vouchers with executive officers presented separation of powers problems. We believe the filing required by the initiative measure does not cause a separation of powers problem. All vouchers presenting claims against the state treasury are paid centrally. The Department of Administration accounts for the general fund and the Department of Revenue retains and invests it. Presently, all legislative pay vouchers are on file with the division of finance in the Department of Administration. The amendment requires a report which totals by legislator the amount of public money received in compensation for legislative service. There is no barrier to removal of the initiative from the ballot if the amendment you adopt requires the legislative fiscal officer to collect vouchers and issue the report.

We find it difficult to say that the legislature is powerless to enact other effective means of compensating for expenses incurred while on legislative business or making public the amount of compensation claimed by each

HB 454 cont'd

legislator. The legislature has broad power to change an initiative by an enactment covering the same subject as the initiated measure. Warren v. Boucher, 543 P.2d 731 (Alaska 1975). This power differs little from the legislature's power of amendment afforded after enactment of an initiative. In Warren, the court stated:

Upon reflection we have concluded that the legislature's discretion in this matter is reasonably broad. If in the main the legislative act achieves the same general purpose as the initiative, if the legislative act accomplishes that purpose by means of systems which are fairly comparable, the substantial similarity exists. It is not necessary that the two measures correspond in minor particulars, or even as to all major features, if the subject matter is necessarily complex or if it requires comprehensive treatment. The broader the reach of the subject matter, the more latitude must be allowed the legislature to vary from the particular features of the initiative.

543 P.2d at 736. We understand your concern about the poor public policy expressed in subsection (b) concerning reimbursement of actual expenses. The definition of "actual" expenses would be difficult and controversial. This method for reimbursing expenses may lead to artificial inflation of expense accounts. It would also be a disincentive for legislators to economize and use low cost modes of travel and accommodations. The insertion of a reimbursement provision which applies the short-term per diem rate to travel and other expenses incurred for legislative business conducted during the interim is within the discretion of the legislature. It is a close question whether this amendment would prevent the initiative from appearing on the ballot. From the tone used in Boucher, we presume that the court would generally defer to the judgment of the legislature so long as the same general purpose of the initiative is retained. We perceive that purpose to be to return legislative pay to the levels that existed before July 1983. To impose a more limiting purpose would do injustice to the full scope of lawmaking powers accorded to the legislature under article II of the Alaska Constitution.

You have also asked whether the sections enacting the initiative measure are compatible with the provisions of HB 454. Under HB 454, the future pay raises for the legislature and other appointed executive officers would be set by a salary commission. Any pay increases announced by the salary commission would amount to an amendment of the initiative. Because the salary commission would be exercising a delegated lawmaking power, the changes would probably be within the legislature's discretionary power to amend initiative within two years after adoption. See Alaska Const. art. XI, sec. 6 (initiative may be amended at any time).

HB 454 cont'd

We urge you to create a good record to support your subcommittee's intent concerning any amendments adopted. The legislative history will prove invaluable in defending any actions brought to contest the lieutenant governor's decision concerning placement on the 1986 primary election ballot.

Sincerely yours,

HAROLD M. BROWN
