

SENATE JOURNAL

ALASKA STATE LEGISLATURE

FOURTEENTH LEGISLATURE - SECOND SESSION

JUNEAU, ALASKA

FRIDAY

April 25, 1986

One Hundred third Day

Pursuant to adjournment, the Senate was called to order by President Bennett at 10:50 a.m.

The roll showed fifteen members present. Senators Abood, DeVries, Eliason, Vic Fischer and Rodey were excused from a call of the Senate.

The prayer was offered by the Chaplain, Right Reverend Archimandrite Innocent (Bryntzko) of St. Nicholas Russian Orthodox Church. Senator Paul Fischer moved and asked unanimous consent that the prayer be spread. Without objection, it was so ordered.

"In the Name of the Father, and of the Son,
and of the Holy Spirit,

"O Lord, enlighten us with the words of Thy
wisdom.

'Men may make their plans, but
God has the last word.

You may think everything you do
is right, but the Lord judges
your motives.

Ask the Lord to bless your plans,
and you will be successful in
carrying them out.

Everything the Lord has made has
its destiny; and the destiny of the
wicked man is destruction.

The Lord hates everyone who is
arrogant; He will never let them
escape punishment.

Be loyal and faithful and God will
forgive your sin.

Fear the Lord and nothing evil
will happen to you.

When you please the Lord, you can
make your enemies into friends.

It is better to have a little,
honestly earned, than to have a
large income, gained dishonestly.

You may make your plans, but God
directs your actions.
(Proverbs 16:1-9)

O Lord, give Thy blessing.

Amen."

The Pledge of Allegiance was recited.

Senator Halford moved and asked unanimous consent that the journal for the one hundred second legislative day be approved as certified by the Secretary. Without objection, it was so ordered.

STANDING COMMITTEE REPORTS

SB 356

The Finance Committee considered SENATE BILL NO. 356 (election campaign financing; efd) and recommended it be replaced with

CS FOR SENATE BILL NO. 356 (FIN)

Senator Faiks, Co-Chairman and Senators Ferguson and Sackett signed "do pass". Senator Kerttula signed "do pass, will offer one amendment". Senator Paul Fischer signed "no recommendation".

Fiscal note is in Senate Supplement No. 71.

Letter of Intent for CSSB 356 (FIN)

It is the intent of the Senate Finance Committee that candidates under this statute when contracting for public

SB 356 cont'd

relations services give priority to Alaskan firms. If a candidate should choose a non-Alaskan firm, a letter of explanation shall be provided to the Legislature. This includes contracts covering the creation and production of printed materials, such as type setting, photography and printing, creation of advertising materials, such as magazine advertisements and television commercials, as well as the media space and time for the appearance of these advertisements.

SENATE BILL NO. 356 was referred to the Rules Committee.

SB 408

The Health, Education and Social Services Committee considered SENATE BILL NO. 408 (state aid to education; efd) and recommended it be replaced with

CS FOR SENATE BILL NO. 408 (HESS)

and a majority do pass. The report was signed by Senator Fahrenkamp, Chairman and concurred in by Senators Josephson and Sturgulewski. Senators DeVries and Paul Fischer signed "no recommendation".

Letter of Intent for CSSB 408 (HESS)

It is the intent of the Legislature that the Department utilize the following methodology to implement the formula contained in Senate Bill No. 408.

I. Calculation of Instructional Units (AS 14.17.041):

- A) Elementary school units are calculated using schedule (a), except for those districts which fall under schedule (f). Units are based on the district elementary school ADM (grades K-6 and pre-elementary special education students) as a total, except in the case of elementary schools in distinct communities more than twenty miles distant from district headquarters or inaccessible by road. Units for each school more than twenty miles distant from district headquarters or inaccessible by road are counted separately.
- B) Secondary school (grades 7-12) units are calculated using schedule (b), except for those districts which fall under schedule (f). Each high school's ADM and units are counted separately. Junior high schools are not counted separately from high schools, except when located in a distinct community without any other secondary school.

SB 408 cont'd

- C) For districts falling under schedules (a) and (b), instructional units for sites offering only grades K-8 are computed using schedule (a) only.
- D) Combined secondary and elementary units for single city municipal school districts are calculated using schedule (f). Units are based on the districtwide ADM (K-12 and preelementary special education). For districts with less than 500 ADM, units for ADM from 61 - 499 are calculated with that clause from schedule (f). Districts with 500 - 999 ADM use that schedule (f) clause to calculate units for all ADM over 60.

School year 1986 - 1987 projected initial enrollments were employed in our calculations for Steps I. A) - C).

- E) Vocational education units are calculated with schedule (c). Units are based on districtwide FTE ADM. We used 1985 actual enrollment as a proxy.
- F) Special education units are calculated according to schedule (d). Units are to be based on districtwide ADM. Unweighted 1986 - 1987 enrollment projections were used.
- G) Bilingual education units are calculated with schedule (e). Units are based on districtwide weighted ADM. The weights used were those in 1978 regulations. Categories "A" and "B" ADM count as 1 ADM, "C" and "D" as .2 ADM, and "E" as .1 ADM. 1985 actual enrollment as a proxy in the absence of enrollment projections by language categories were used.
- H) Correspondence education units are calculated using the elementary education schedule (a). For districts using schedule (f), correspondence ADM are added to K-12 ADM for calculation of the districtwide units under that schedule.

II. Remote School Instructional Units (AS 14.17.031(c)):

- A) Remote school units for each district are calculated using the schedule in 14.17.031(c). Remote schools have been defined as all schools with 32 or fewer ADM, excluding schools in Anchorage and Fairbanks, per 1978 DOE practice.

III. Each district's instructional units calculated under steps I and II are summed and multiplied by the district's instructional unit allotment.

IV. Each district's basic need (AS 14.17.021(b)) is calculated by multiplying the instructional unit amount by the number of the district's instructional units per step III.

SB 408 cont'd

V. State aid for each district is determined by multiplying the basic need from Step IV by each district's equalized percentage (AS 14.17.021(c)). Equalized percentage for each district is equal to $1 - ((1 - 97\%) \times V_i/V_s)$. V_i equals the full and true value of taxable real and personal property per ADM within a city/borough district and V_s equals the average valuation per ADM for all city/borough districts. State aid must equal at least 97% of basic need. Thus V_i/V_s is effectively capped at 1.00.

General Methodological Procedures: All ADM's and all Instructional Units were rounded upward.

Further, it is the intent of the legislature that the Department of Education exercise its statutory authority to require school districts to submit to the department any information or reports which are reasonably necessary to assist the department in the establishment of a management information system for public schools to provide accurate and consistent data on numbers of students, personnel, revenues, and expenditures for each district.

Further, it is the intent of the legislature that funds remaining in the secondary formula account after the allocation required under AS 14.17.023(a) be used to cover emergency, unique and special education circumstances. For example, the Lake and Peninsula School District faces unique circumstances in providing basic education in its 14 schools. These 14 schools are scattered over a wide area, as large as some states in the lower 48. The schools are not serviced by regular transportation services. The cost of getting basic supplies to the schools can run as high as 300% greater than adjacent school districts, and as much 1000% greater than Alaska school districts which are located in the State's road system.

Further, it is the intent of the legislature that special education circumstances that have an enormous financial impact like Kake School District with three multiple handicapped children should receive funding through AS 14.17.023(b).

Further, it is the intent of the legislature that the Department of Education draft regulations to accommodate these types of unique and special education situations.

SENATE BILL NO. 408 was referred to the Finance Committee.
