8 **WHEREAS** the Alaska State Legislature understands the challenges school districts  
9 face to ensure Alaska's children have skilled teachers, quality curriculum, and safe schools;

11 **WHEREAS** continued growth is projected in the state's school age population that will  
12 increase the need for new schools and place further pressure on school district budgets; and

13 **WHEREAS** prudent stewardship of state resources requires that every effort be made  
14 to get the best value for each state dollar spent; and

15 **WHEREAS** use of prototype school designs has enabled the Municipality of

17 Borough school districts to more quickly and economically respond to their district's need for

1 new schools and realize cost savings; and

2       **WHEREAS** the use of prototype school designs reduces future routine and major  
3 maintenance cost and improves a school district's maintenance program through the use of  
4 standardized building components, systems, and products; and

5       **WHEREAS** school districts experience substantially fewer problems during the first  
6 school year in a prototype school, thereby reducing the school district's costs and improving  
7 the teaching environment for teachers and learning environment for students; and

8       **WHEREAS** public facilities should be designed to accurately reflect the unique needs  
9 of our subarctic and arctic environments, and northern design principles can help minimize  
10 annual operating and maintenance costs;

11       **BE IT RESOLVED** that the Alaska State Legislature encourages school districts to

18 other conditions that affect application of appropriate school designs; and be it

19       **FURTHER RESOLVED** that the Governor is requested to direct the Department of  
20 Education to consult with the bond reimbursement and grant review committee in developing

23 (AS 37.05.560); and be it

24       **FURTHER RESOLVED** that the Governor is requested to direct the Department of
