ANALYSIS: (Attach a separate page if necessary)
 This legislation would provide for:
 1) Using bond proceeds instead of GF Match to capitalize the Alaska Drinking Water Fund; and
 2) Using fees deposited into (and appropriated from) two new administrative funds to pay the operating expenses of the Clean Water and Drinking Water loan programs. (Continued next page.)

FISCAL NOTE

STATE OF ALASKA
2000 LEGISLATIVE SESSION

BILL NO. SB 210
#2

Revision Date/Time (Note if correction)	_____	Dept. Affected	DEC
Title	<u>AK Bonding - AK Drinking Water Fund</u>	BRU	<u>Facility Construction and Operation</u>
	_____	Component	<u>Facility Construction and Operation</u>
Sponsor	<u>Rules Committee</u>		
Requester	<u>Governor</u>	Component No.	<u>637</u>

ANALYSIS: (Continued)

The Drinking Water and Clean Water Loan Programs offer low-interest loans to municipalities for drinking water and sewerage facility construction projects. Loans are made from the Alaska Drinking Water Fund and the Alaska Clean Water Fund. Both funds are capitalized by annual federal grants that require a 20 percent state match. The Funds also earn investment and repayment interest.

To date, the state capitalization match requirement for the Drinking Water Fund has been met with GF Match. Federal law provides an alternative to general fund outlays for satisfying the state match requirement. States may use bond financing as match for federal funds to capitalize the Fund, and repay the bonds from interest earnings from the Fund. Statutes (AS 37.15.560) currently provide the bonding authority for the Clean Water Fund needed to take advantage of this funding mechanism. This legislation would provide the same bonding authority for the Drinking Water Fund.

Beginning in FY 2002 there will be sufficient interest in the Alaska Drinking Water Fund to meet the match requirement. Interest will be converted to bond proceeds and supplant the annual general fund appropriation. The effect will be to save approximately \$1.5 million in GF Match that year and each year thereafter. Bonding costs will be about \$70.0 per year.

This legislation would also provide authority to collect fees as a means of funding the operation of the two loan programs. Federal law allows states to set aside four percent of the federal capitalization grants to help pay for program administration. To date, annual operating expenditures of \$973.7 have been met with this Loan Fund set aside. With decreasing federal grant levels, the Loan Fund set-aside is also decreasing and is no longer sufficient to cover the costs of program administration. This legislation would create two new administrative funds into which loan fees would be deposited. Money could then be transferred from these administrative funds to the operating budget to finance program operating costs. This legislation would result in fully fee-supported loan programs by FY 2005.
