ANALYSIS: (Attach a separate page if necessary)

This bill amends current law and adds new statutes to enable prosecution of a wide variety of computer-related offenses.

Prosecution and defense of these offenses will require sophisticated technical expertise. The Public Defender Agency does not currently have staff who have the technical knowledge necessary to defend criminal cases that could be brought under this new legislation.

The Public Defender Agency will need to hire a Programmer Analyst I in order to consult with and train the attorneys appointed to defend these cases. The Programmer Analyst will be based in Anchorage. In addition to providing technical assistance on individual cases in Anchorage, the Programmer Analyst would also be responsible for training attorneys and investigators in all Public Defender Agency offices on technical issues in these cases. One-time equipment costs for computer equipment is also included in the first year.
