ANALYSIS: (Attach a separate page if necessary)

Fiscal Impact: Three (3) full time positions will be required to draft and administer regulations for approximately 50 new nontank vessel operators and railroads. Two Environmental Specialists III will be located in Anchorage to initially develop regulations, and will then subsequently review and approve individual oil discharge prevention and contingency plans, inspect vessels and railroad facilities, and conduct and evaluate spill response drills. One Environmental Specialist II in Juneau will initially assist in developing regulations, and will subsequently review financial responsibility documentation and maintain the associated database, and conduct southeast vessel inspections. During the first year, \$90.0 for professional services contracts is included to assist in the negotiated rule making process and technical issues associated with the regulations. Other contractual funds cover position support costs and technical assistance with inspections and spill response drills.

Economic Impact: This bill will require some operators to incur additional costs for oil spill response equipment, contracts with spill response organizations if they are not already voluntarily meeting the regulatory standard, and costs to obtain and demonstrate proof of financial responsibility.

Prepared by: Larry Dietrick Phone 465-5250
Division: SPAR Date/Time 2/18/00 5:35 PM
Approved by: Commissioner *Kurt Feisthacker* for Date 2-19-00
Agency: Department of Environmental Conservation
