FOR AN ACT ENTITLED

1 **"An Act relating to aviation and to emergency equipment to be carried on aircraft."**

2 **BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

3 * **Section 1.** AS 02.10.010 is amended to read:

4 **Sec. 02.10.010. Supervision over aeronautics and communication.** (a) The
5 **Department of Transportation and Public Facilities** [DEPARTMENT] shall
6 supervise aeronautics and communications inside the state, and shall make
7 recommendations for the establishment, location, maintenance, operation, and use of
8 airports, landing fields, air markings, air beacons, and other navigation facilities [,
9 AND FOR THE ESTABLISHMENT, OPERATION, MANAGEMENT, AND
10 EQUIPMENT OF ALL AIR SCHOOLS, FLYING CLUBS, AND OTHER
11 PERSONS GIVING AIR INSTRUCTION].

12 (b) The department shall, whenever it considers the action necessary in the
13 interest of general safety or the safety of those engaged in aeronautics, adopt
14 regulations establishing minimum standards with which all air navigation facilities [,

1 AIR SCHOOLS, AND FLYING CLUBS] shall comply, and shall adopt and enforce
 2 regulations to safeguard from accident and to protect the safety of persons operating or
 3 using aircraft and persons and property on the ground, and to develop and promote
 4 aeronautics and communications in the state. However, the regulations may not
 5 duplicate or conflict with the aeronautical and communications regulations **adopted**
 6 [IN FORCE] by the **United States** Department of **Transportation or** [COMMERCE
 7 OF THE UNITED STATES,] the Federal Communications Commission [OR THE
 8 PROVISIONS OF THE FEDERAL AIR COMMERCE ACT OF 1926].

9 * **Sec. 2.** AS 02.10.010 is amended by adding a new subsection to read:

10 (c) The department shall adopt regulations governing the proper protection of
 11 the records of the proceedings of the department and the filing and publicizing of its
 12 regulations so that they are accessible to and generally known by the interested public.

13 * **Sec. 3.** AS 02.15.090 is amended by adding new subsections to read:

14 (f) The department shall require as a term of all aviation-related contracts,
 15 leases, and other arrangements for use or occupancy of an airport operated by the
 16 department, including the international airports, that the parties to the contract, lease,
 17 or other arrangement, including the department, shall be required to reimburse each
 18 other according to the principles of comparative fault for amounts paid others for
 19 personal injury and property damage. The apportionment of liability among the
 20 parties to an agreement under this subsection may not affect the rights of persons who
 21 are not parties to the agreement.

22 (g) If the department determines that it is in the best interests of the state to
 23 require that persons holding aviation-related leases, permits, or concession contracts
 24 for use or occupancy of an airport operated by the department, including international
 25 airports, provide insurance coverage, the department shall develop and adopt by
 26 regulation guidelines for the types and limits of insurance coverage required for
 27 aviation-related leases, permits, or concession contracts. The department may
 28 authorize a variation from the coverage required by the regulation if the department
 29 finds in writing that the variation is necessary considering the best interests of the state
 30 and the unique circumstances underlying a specific aviation-related lease, permit, or
 31 concession contract.
