2 **effective date."**

3 **BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

4 * **Section 1.** The uncodified law of the State of Alaska is amended by adding a new section
5 to read:

6 LEGISLATIVE FINDINGS. The legislature finds that

7 (1) low- and moderate-income senior citizens in the state are having
8 increasing difficulties paying for the costs of the prescription drugs that are necessary for their
9 health care;

10 (2) whether elderly citizens can continue to pay for the prescriptions they need
11 has become a nationwide concern;

12 (3) over the last three decades, not fewer than 26 states have put in place a
13 prescription drug assistance program of some type and, in some cases, of more than one type;

14 (4) these programs have included subsidy programs, discount programs,

1 rebates, bulk purchasing arrangements, and tax credits;

2 (5) one or more of these strategies were under consideration in 44 states as of
3 June 2001;

4 (6) if this state adopts one of these strategies for helping its senior citizens
5 cope with the costs of their prescription drugs, the strategy must be adapted for use in this
6 state;

7 (7) the strategy used in this state should also anticipate which efforts are most
8 likely to benefit from future contemplated changes in the Medicaid or Medicare programs;
9 and

10 (8) a task force established to focus on the prescription drug cost issue would
11 put the state in a better position to formulate policies on this subject.
