2 **BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

3 **WHEREAS** the salmon industry is one of the cornerstones of the Alaska economy,  
4 supporting tens of thousands of jobs, and salmon is one of our most valuable foreign export  
5 commodities; and

6 **WHEREAS** the global salmon market has changed considerably in recent years,  
7 placing the Alaska salmon industry in economic peril and threatening not only the main  
8 engine of the rural economy of the state but also a significant contributor to urban economies;  
9 and

10 **WHEREAS** imports of farmed salmon from nations with a significantly cheaper labor  
11 market are causing harmful revenue losses to the state's general fund and to municipal  
12 budgets; and

13 **WHEREAS** current inventories of canned Alaska salmon are expected to remain full  
14 well beyond the upcoming salmon season, and a large portion of the fleet-wide production is  
15 processed into cans; and

16 **WHEREAS** hundreds of harvesters are in danger of actually being without markets

1 and being forced into bankruptcy this year; and

2 **WHEREAS** numerous salmon processing facilities have recently ceased operations or  
3 plan to do so before the 2002 salmon fishing season due to market factors and difficulty in  
4 obtaining operating loans; and

5 **WHEREAS** Alaska wild salmon is a renewable resource that is becoming  
6 increasingly unique in the global market and can provide immeasurable economic benefit to  
7 this state into perpetuity;
