Temporary						

ANALYSIS: (Attach a separate page if necessary)

HB 12 lowers the blood alcohol content from .10 to .08. It is estimated that this will result in a 10% increase in number of DUI cases resulting in convictions and mandatory referral to Alcohol Safety Action Programs and subsequently for treatment. Of these additional cases DHSS estimates that 75% would be treated in a public program. Due to existing wait capacity and waitlist an additional \$582.2 is required to fund the capacity required to provide the mandated treatment required.
