Part-time						
Temporary						

ANALYSIS: (Attach a separate page if necessary)

This legislation would create a new state-administered program of enterprise zones. It requires that the department develop regulations to operate the program, including a formal application and appeals process. The department would be required to annually perform analyses to determine if applications met specific requirements laid out in the legislation. The department would then prioritize applications and make recommendations to the Governor and the Legislature regarding appropriate enterprise zone incentives.

These requirements represent significant administrative duties that cannot reasonably be absorbed by existing staff. The department estimates that the new administrative functions would require an additional Development Specialist II position (Range 20a) for half of the first program year (during regulation and application process development); and, for a fourth of subsequent years for general program administration.
