Part-time						
Temporary						

**ANALYSIS:** (Attach a separate page if necessary)

This bill provides for the electronic issuance of hunting and fishing licenses, tags and permits. This process is intended to be a convenience to the public and will complement the current paper system that will continue to be offered and account for the vast majority of sales. The state currently sells over 700,000 pieces of licensing stock annually, generating over \$20 million in revenue, and pays out approximately \$2 million in vendor compensation.

Any licenses sold by the state as a license vendor will result in the foregone vendor compensation remaining in the Fish and Game fund pending appropriation by the Legislature through the normal budget process. Any fees assessed by a vendor for providing electronic licenses are anticipated to be less than the amount currently paid out as vendor compensation. In the event that an electronic vendor, through a competitive solicitation process, charges more than the current allowance for vendor compensation, the bill allows for a fee of not more than \$3 to be assessed by the vendor.
