ANALYSIS: (Attach a separate page if necessary)

This legislation would reduce by half the quantity of alcoholic beverages required to be in a person's possession in a local-option area to create the legal presumption (for criminal prosecution) that the beverages are intended for sale. It also would reduce by half the quantity of alcoholic beverages that could be shipped each month to a purchaser in an area that imposes restrictions on alcohol sales. Section 3 would require more extensive ID checks and record keeping by package liquor stores near a local-option community that has restricted sales of alcoholic beverages. Section 8 would require the state Alcoholic Beverage Control Board to review an approved alcohol server education course every two years instead of three years in existing statute. None of these provisions are expected to have a fiscal effect on the state Alcoholic Beverage Control Board.

Section 4 would require liquor license applicants (including license transfer applicants) to submit to the ABC Board a set of fingerprints of the applicant(s) and the fees required by the state Department of Public Safety for a national criminal history record check of the applicant's fingerprints. Because license applicants would pay the fee for the record check, this legislation is not expected to have a fiscal impact on the ABC Board.
