ANALYSIS: (Attach a separate page if necessary)

SCS CSHB 132 (FIN) allows the state, municipality, or established village to designate a delivery site for alcoholic beverages in municipalities or villages that have adopted a local option that permits importation. For FY 02, the costs of operating state delivery sites will come from non-GF funds.

The bill also amends AS 28.35.030(a) by lowering the blood alcohol limit from 0.10 to 0.08 percent by weight of alcohol in a person's blood (and a corresponding change in the limit for alcohol in a person's breath) for the offense of driving while intoxicated (DWI), a class A misdemeanor. The bill also changes the presumptions in AS 28.35.033(a) in a civil or criminal action from 0.05 - 0.10 to 0.04 - 0.08 percent by weight of alcohol in the person's blood (and a similar change for breath alcohol), as the area where there is no presumption about the person being under the influence of alcohol. Under this bill, a person who measures 0.04 and below is presumed not under the influence, and a person who measures 0.08 and above is presumed to be under the influence of

2001 LEGISLATIVE SESSION

BILL NO. SCS CSHB 132(FIN) #17

ANALYSIS CONTINUATION

intoxicating liquor. The bill will result in an increased number of DWI cases being prosecuted by the Department of Law.

In FY00, the Criminal Division accepted for prosecution 3,250 misdemeanor and 213 felony DWI cases throughout the state. Experience has varied in other states that have reduced from 0.10 to 0.08 the limit for driving while intoxicated. This fiscal note is based on the assumption passage of this legislation would generate a five percent increase in the division's DWI caseload. This would result in 161 additional misdemeanor and 11 felony DWI cases, which are much more time-consuming to prosecute than misdemeanors. The Department of Law assumes that municipalities which presently prosecute misdemeanor DWI will amend their ordinances to mirror the change in state law. If this does not occur, the estimated number of misdemeanor prosecutions is understated.

Much of the anticipated increase in prosecutions will occur in southcentral Alaska. Because Anchorage is the hub from which prosecutors are sent to assist other offices in times of overload, it will be necessary to add half of one new attorney position to the Anchorage District Attorney's Office.

The Collections unit in the Civil Division's Collections and Support section collects judgments for criminal fines, cost of incarceration for DWI offenders, and cost of court appointed counsel. The change to 0.08 as the threshold for DWI offenses will increase the number of judgments the unit is required to collect annually. Assuming an 80-85 percent conviction rate, the unit anticipates receiving 140 judgments for criminal fines as a result of this change, and 140 judgments for the cost of incarceration. In addition, approximately 80 percent of the offenders are expected to have judgments for the cost of court appointed counsel, 110 in all.

In order to process and collect the estimated 390 new judgments each year, Collections unit personnel must enter the judgment data into the collections data base, post payments received, prepare PFD attachment packets for the court system and Department of Revenue, enter adjustments and process refunds when necessary, respond to phone calls from defendants, court personnel, prosecutors, and other state agencies, prepare satisfactions of judgments, and prepare quarterly or annual reporting of collections data. Much of this work can be handled by existing staff. However, the additional data entry and phone calls will require an additional half-time Administrative Clerk II. The Collections unit administrative staff is at capacity, and could not absorb even the 390 new judgments a 5 percent increase in caseload is anticipated to generate without the additional position to do data entry, and respond to the phone calls the judgments will generate.

The bill also amends the felony DWI statute. Under current law, for the purposes of charging an offender with felony DWI, the state can only "look back" 5-years for the first two offenses. If any of the prior offenses are older than 5-years, the charge remains a misdemeanor. SCS CSHB 132 (FIN) will phase in a 10-year look back period for felony DWI, one year at a time, over the next five years.

Based on Division of Motor Vehicle (DMV) data, it is estimated that increasing the limit to 10-years for how old prior convictions must be in order for the third offense to be charged as felony DWI will result in approximately 240 new felony DWI referrals per year when fully phased in. The Criminal Division estimates approximately 95 percent of these will be accepted for prosecution, based on acceptance rates for current felony DWI prosecutions. This would mean approximately 225 new felony prosecutions in all. For the purposes of this fiscal note, the Department of Law assumes the new felonies will phase in evenly over the 5-year phase in period: 45 new felony prosecutions in FY02, 90 in FY03, 135 in FY04, 180 in FY05, and 225 in FY06.

Felony prosecutions are much more resource intensive than misdemeanor prosecutions. Because the penalties are so much higher, defendants are more likely to vigorously challenge the charge, and less likely to settle prior to trial. The Criminal Division anticipates it would need two new FTE attorney positions to handle these new felony cases, to both screen the referrals and prosecute those that are accepted. These positions would phase in as the number of new felony referrals increase. We anticipate that one new FTE attorney for the Anchorage DAO would be necessary in FY03, and one new FTE attorney for the Fairbanks DAO in FY 05.

All position costs except the Collections unit position are based on the department's FY02 timekeeping and billing rate, and include clerical support, communications, space, supplies, data processing, and other normal overhead expenses. Collections unit positions are specialized, and are not recovered through the timekeeping and billing rate, so are included separately. The standard cost does not include one-time new equipment purchases, and \$6,500 per position is added for this purpose. A summary of line-item costs by position for each section of SCS CSHB 132 (FIN) narrated above follows.

The effective date of for implementation of the DWI related sections of this bill is September 1, 2001, so only ten months of funding is required in FY02. The Criminal Division position for 0.08 will not be filled immediately, so the funding for the Anchorage DAO is further reduced in FY02 to approximately nine months.
