Temporary						

ANALYSIS: (Attach a separate page if necessary)

HB 132 lowers the blood alcohol content from .10 to .08. It is estimated that this will result in a 10% increase in number of DUI cases resulting in convictions and mandatory referral to Alcohol Safety Action Programs (ASAP) and subsequently for treatment. Of these additional cases DHSS estimates that 100% would be referred to an ASAP. The costs to handle these additional cases is \$112.4. We estimate that 65-70% of these cases will be handled by the ASAP office in Anchorage, which is operated by employees of the Division of Alcoholism and Drug Abuse. FY 02 costs represent 10 months funding in recognition of the 9/1/01 effective date of this provision.
