Temporary						

ANALYSIS: (Attach a separate page if necessary)

HB 179 creates an class B misdemeanor crime of "habitual minor consuming." Upon conviction the court is to require the individual to receive treatment specified under AS 28.35.030(h). AS 28.35.030(h) is geared toward the sentencing of adult DWI offenders. Alcohol Safety Action Program (ASAP) functions not as treatment but as the monitor of compliance with conditions of the court as part of the sentence. The existing ASAP program does not serve minors (persons under 18). Based on DMV data about youth the lose their driver's license due to MC/MIP, we are projecting that an additional 1,048 person statewide would be found guilty under this bill and referred to ASAP programs. Current ASAP programs are under funded and could not absorb this increase without increased funding. These funds would allow the Division to fund programs that would be specific for the person guilty of "habitual minor consuming."

ANALYSIS: (continued)

AS 47.37.045 established the Community Action Against Substance Abuse program. Under this program 47.37.045(7) allows for the funding of "youth assessment and referral programs that provide substance abuse screening services to and monitor compliance with a minor required to participate in..." alcohol or drug education or treatment. As such these funds are requested under that grant component.

The Division of Motor Vehicles has been keeping records of the number of youth who lose their driver's license under existing statutes since CY 95. As review of this data indicates that in CY 2000 1,048 youth lost their driver's license due to having had their third minor consuming or minor in possession offense. Since the number of youth with a third offense has grown each year since CY 95 we would project that under this crime we could expect to see that many youth being sent to ASAP under this bill.

As can be seen by the data from the Division of Motor Vehicles (shown in the chart below), it indicates that over the past years the number of youth losing their driving licenses for minor consuming has been increasing. The number that have lost their license for second and third or more offenses has also risen. The chart below is from this data and clearly shows that the number of youth that could be determined to be guilty of "habitual minor consuming" would be high.
