**ALL FUNDING FOR DET IS INCLUDED IN THE GOVERNOR'S BUDGET.** This bill allows for the continuation of Designated Evaluation and Treatment services covered in the FY02 Governor's Request. These statutes (sunset date July 1, 2001) establish consistent methods for the Department to pay for voluntary or involuntary inpatient psychiatric services for individuals who pose a danger to themselves or others because of mental illness, or who are gravely impaired by mental health systems, and who have no third party payor and cannot afford the high cost of hospitalization. The provision of these services in local communities fits with the objectives of serving consumers close to home. Federal laws have reduced the % of the \$10 million in Disproportionate Share Hospital funds that have been available to API on an annual basis since the 1980s. This "frees up" the balance of the DSH funds for other special needs populations served by qualifying hospitals. The DET assistance program is a logical, eligible recipient of these funds..
