POSITIONS

Full-time						
Part-time						
Temporary						

ANALYSIS: (Attach a separate page if necessary)

Currently, the law states that active parental permission is required before schools and districts can survey students anonymously. This bill would change the current legislation by allowing districts to gather passive parental permission before the administration of any anonymous surveys. This change would maximize the ability of school, district and state agencies to gather pertinent information about student reported behaviors that lead to early morbidity and mortality. By being able to gather credible data from students, many local and state agencies would have valid and reliable assessment data which in turn, would allow for better program planning and use of program dollars. This change would allow local and state agencies to compete effectively for limited state and federal grant funds that rely on accurate needs assessments.
