ANALYSIS: (Attach a separate page if necessary)

The current Food Safety Laboratory has operated in a leased facility in Palmer for over 30 years. The facility is now inadequate for current lab operations. In addition the lease will soon expire with no opportunity for long term renewal. The bill would authorize financing and construction of a new Seafood and Food Safety Laboratory to be operated by the Department of Environmental Conservation (DEC).

The Department of Administration (DOA) pays the current lease costs for the lab. DEC reimburses DOA for a portion of these costs through an RSA. DEC will directly pay for all of the utilities and maintenance costs for the new building. These new costs are shown in the contractual line. Annual lease savings partially offset these new utility and maintenance costs as shown on the attached chart.

We expect to begin occupying the building in January 2005, therefore the costs shown for 2005 are for half a year.
