ANALYSIS: (Attach a separate page if necessary)

This bill requires the director of insurance to determine the number of individuals covered under health benefit plans in Alaska. A health benefit plan is now defined as a health care insurer instead of an employee welfare benefit plan. The division already collects covered lives data from health care insurers for purposes of reporting under AS 21.06.110. Therefore, any cost to modify the survey form, compile and report this data would be absorbed within existing division resources.
