ANALYSIS: (Attach a separate page if necessary)

Based on current levels of harvesting on non-state land, and current funding levels, DNR will not need additional operating funds to implement the changes in this bill. If the amount of harvesting on non-state land increases substantially, or if FRPA funding, including federal Section 319 funding declines significantly, additional funds would be needed for field inspections of riparian buffers. On state land, the revised riparian standards can be incorporated into the existing sale design process.
