ANALYSIS: (Attach a separate page if necessary)

SB 153 replaces the underground storage tank grant and loan program with a revolving loan program. Operating costs to oversee cleanups will be the same regardless of whether the financial assistance is given in the form of a grant or loan as it is assumed that those operators currently eligible to receive grants will request loans. Additionally, regulations will need to be changed to repeal the grant program and establish loan requirements. This will be done by existing staff.

The amount needed to capitalize the loan program will need to be determined.
