ANALYSIS: (Attach a separate page if necessary)

The bill would authorize financing and construction of a new laboratory facility that would replace the current leased location in Palmer. The Division will execute a lease purchase agreement for the lease purchase of a new seafood and food safety laboratory in Anchorage.

Lease savings would begin mid way through (January) FY2005 when we anticipate occupying the new facility. The specific lease and current costs are shown on the attached page. Annual costs for the Palmer lease in FY2001 are budgeted in the Department of Administration's (DOA) Leases component as \$98.0 of General Funds and in the Department of Environmental Conservation's operating budget and paid to DOA via a \$17.7 RSA. Future years estimated lease savings have been adjusted to reflect the January occupancy date and probable Consumer Price Index adjustments.

Costs for the design, construction, acquisition and construction contract compliance are not included in this fiscal note as those costs and associated work will be borne by other state departments.
