ANALYSIS: *(Attach a separate page if necessary)*

Currently, various end-of-life provisions are located in different statutes which are narrowly drafted, create confusion for the public, and make it difficult for people to direct their end-of-life care and treatment. The bill establishes a new chapter called the Health Care Decisions Act. The intent of this bill is to provide a tool for end-of-life planning and recording of health care decisions, in one easy to understand chapter of state statute. The Division of Public Health supports the goals of this act. There will be no fiscal impact to the Division by passage of this bill.
