ANALYSIS: (Attach a separate page if necessary)

This revised fiscal note is zero as the cost of reinvigorating the air permit program is in the Governor's FY 2004 operating budget request.

This legislation removes roadblocks preventing predictable, reliable and rational permitting, while the budget increment provides staff to execute these legislative reforms and issue permits in a timely manner.

The result is a permitting program that is predicable, protective of air quality and flexible enough to take advantage of fast changing business opportunities. This achieves the governor's goal of enhancing resource development while maintaining environmental protection.
