ANALYSIS: (Attach a separate page if necessary)

Funding for this legislation is included in the FY04 Governor's operating budget request. Under this legislation, DNR will establish an Office of Project Management and Permitting. This office will lead and coordinate all matters relating to the state's review and authorization of resource development projects. The purpose of the office is to facilitate and expedite resource development of large projects by coordinating and streamlining the permitting activities of all state agencies with authority over a project. To accomplish this DNR is requesting funding to establish the office and develop the program base for an on-going program. DNR is requesting five positions that will serve as project managers and coordinators.

ANALYSIS CONTINUATION

These positions will be responsible for negotiating agreements and managing the overall state project review and permitting activities of all agencies with jurisdiction over a project. These positions will work with other state and federal agencies and local government to facilitate review and permitting.

Funding for the remainder of FY03 (May and June) is requested in the amount of \$36.2. This allows DNR to establish two of the requested positions to get the office started and begin the effort of streamlining the permitting process. Position costs are estimated at \$7.8/month per position for a total of \$31.2. Additional start up costs for space and computers are estimated at \$5.0.
