ANALYSIS CONTINUATION

For years past FY 2010, there could be a cumulative effect of long-term and short-term sentence increases that would result in higher costs on an annual basis. We have not attempted to estimate these future year costs past FY 2010. Given the recidivism rates for many offenders, it is not clear that these longer sentences will actually have the effect of increasing costs to the Department of Corrections. Our costs are the same on a daily basis whether offenders are serving an extra period of incarceration or are reincarcerated for a new offense. To the extent that increased sentences reduce recidivism for this group of offenders, the legislation may result in lower costs in future years.
