Part-time						
Temporary						

ANALYSIS: (Attach a separate page if necessary)

This bill would eliminate the current over-the-counter shallow natural gas program. HB 531 would create a new gas only option under the competitive leasing and exploration licensing programs.

****Indeterminate positive fiscal note:** Moving from an over-the-counter program to a competitive program will result in increased revenue to the state. The commissioner will be able to set minimum rentals and bonus bid amounts based on technical analysis of the potential resources and economics of the lease or license area. While a best interest finding process will cost more up front, that cost will be more than offset by the gains in going to a competitive process. Also, having a best interest finding process at the leasing stage will facilitate a more efficient progression to exploration and development and provide the state with royalties and other revenues from development sooner.
