Part-time						
Temporary						

**ANALYSIS:** (Attach a separate page if necessary)

This bill requires informed consent of an individual before obtaining genetic information from the individual's DNA. The bill states that an individual's genetic information and DNA sample are private and must be protected, and requires that DNA samples from an individual be promptly destroyed upon the request of that individual. It provides for a criminal penalty for unlawfully obtaining, retaining, or disclosing genetic information (Class A Misdemeanor).

This bill does not appear to affect current DPS DNA collection and handling protocols because DNA and associated genetic information obtained in connection with AS 44.41.035 (the DNA Registration System) and criminal investigations are exempted. It is noted that the criminal penalties for unlawful disclosure of DNA information under AS 44.41.035 are more severe.

No fiscal impact is anticipated for the Department of Public Safety.
