FISCAL NOTE #1 -- CORRECTED

STATE OF ALASKA
2004 LEGISLATIVE SESSION

BILL NO. SB 275

ANALYSIS

This bill amends existing fee authority to allow DEC to recover the estimated actual costs of services provided for a pesticide registration program; seafood food/safety laboratory services; and contingency plan review and financial responsibility for noncrude oil operations. The bill also eliminates the prohibition on including travel costs in the estimated actual costs for services, adds late fee and permit revocation for nonpayment authority, and results in fund source changes from general fund or the Response Fund to general fund program receipts.

FY2006

RDU: Environmental Health

Component: All

Page 1, line 10. Removing the travel cost recovery prohibition in AS 44.46.025(a) will allow the department to recover costs from ongoing inspection and permit related activities. Estimated average costs that can be recovered, assuming field travel and associated per diem for inspections, not including complaint investigation, or non-fee generating travel, is \$90.0 beginning in FY2006. The programmatic breakdown for travel cost recovery and associated general fund replacement is:

Food Safety Program (RSS)	\$ 72.8
Laboratory Services (GFPR)	\$ 6.5
Drinking Water (GFPR)	<u>\$ 10.7</u>
	\$ 90.0

RDU: Environmental Health

Component: Laboratory Services/Pesticide Program

Page 2, line 14. Subsection (8) allows the department to recover direct costs from ongoing pesticide registration program activities. DEC will charge \$40.00 per pesticide brand registered beginning in FY2006. Fees will replace current general funds used to match the federal pesticide grant (\$68.9), and will replace general funds (\$59.9) for a position that processes registrations for manufacturers and suppliers of 5,500 pesticide brands sold in Alaska. Assumptions include a 40% reduction in the potential number of registrations, generating approximately \$132.0 annually.

RDU: Environmental Health

Component: Laboratory Services/Seafood Food Safety Lab

Page 2, line 15. Subsection (9) allows the department to recover program costs relating to services provided by the state seafood and food safety laboratory. SB 215 authorized the construction of a new seafood food safety lab. A move in date of July, 2005 with full operation by mid-FY2006 is expected. FY2006 revenue projections for testing drinking water and shellfish toxins for one half year is \$112.3. These receipts will double with the full year of operations in FY2007.

RDU: Spill Prevention and Response

Component: Industry Preparedness

Page 2, line 16. Subsection (10) allows the department to recover estimated actual costs relating to the ongoing Plan Review for Oil Discharge Prevention and Contingency Plans (C-Plans) for noncrude oil operations and the related C-Plan Financial Responsibility requirement.

Financial responsibility applications: 980 per year at \$150 per application = \$147,000

Nontank vessel contingency plans: 128 per year at \$250 per application = \$32,000

Other operator contingency plans - new applications: 10 per year at \$1,000 each = \$10,000

Other operator contingency plans - significant amendments: 10 per year at \$500 each = \$5,000

Other operator contingency plans - renewal applications: 17 per year at \$750 each = \$12,750

Current funding source for these activities is the Oil and Hazardous Substance Release Prevention and Response Fund. Fee revenues would replace expenditures from this funding source. Fees would be assessed beginning in FY2006. Total fund source change resulting from the noncrude C-Plan review and financial responsibility requirements is \$206.8.

2004 LEGISLATIVE SESSION

BILL NO. SB 275

ANALYSIS (cont.)

RDU: Air & Water Quality

Component: Water Quality

Page 3, line 9. Adds a new section in AS 44.46 allowing the department to assess late fees against a person who has failed to pay monetary charges. The section also allows the department to revoke or refuse to issue a permit or approval until payment of the charge is made. In 2002-2003 there were over 650 statements for past due balances. With statutory authority to compel clients to pay late fees on outstanding balances we estimate that the number of subsequent statements billed would be reduced by 75% and view the late fee as a deterrent to growing delinquent accounts along with the ability to revoke or refuse to issue authorization for nonpayment. At an average cost per statement of \$14.64 we expect late fees to be minimal and have not included them as a new revenue source.
