Part-time						
Temporary						

**ANALYSIS:** (Attach a separate page if necessary)

This bill adds a new section to the Code of Civil procedure in order to place limits on the amount of recoverable damages for personal injury or wrongful death based on the provision of services by a health care provider. The bill makes a minor change to the requirement that health care providers obtain the informed consent of a patient prior to embarking on a course of action involving the patient, and that informed consent include information regarding risk of death, serious bodily harm, and common serious complications that may occur. The bill also makes clear that a health care provider is not responsible for certain types of advice given that the patient elects not to follow.

Passage of this legislation will have no foreseeable fiscal impact on the Department of Law.
