**January 20, 2004**

**Ninth Day**

Representative Joule - from today to 6:00 p.m., January 23, 2004

Representative Berkowitz - today

The invocation was offered by the Chaplain, the Reverend Ron Covey of the Douglas Community United Methodist Church. Representative Fate moved and asked unanimous consent that the invocation be spread on the journal. There being no objection, it was so ordered.

Mr. Speaker, Honorable Representatives, members of the staff, distinguished guests and visitors, with deep respect for the diversity of faith traditions in our great state, let us take this moment for prayer.

Creating Spirit,

As we look at the creatures and the grandeur of this great land, we see that each has its place and its season as You intended. The

tides rise and fall with predictable regularity, the bears awake from hibernation, the stars wheel in their courses, the salmon return, and all is in harmony.

As we deal with the issues before us, may we seek to work in harmony as well. Remind us that we serve not just for pride or party, but for the people we represent. As the salmon sacrifices itself for the next generation, guide us in what to take up, or to give up, to insure a good life for future Alaskans. Keep us steadfast in our purpose, as the tides are steadfast in theirs. Amen.

The Pledge of Allegiance was led by Representative Kerttula.

The Governor's transmittal letter dated January 12, 2004, follows:

"Dear Speaker Kott:

Under the authority of article III, section 18, of the Alaska Constitution, I am transmitting a bill allowing the Department of Natural Resources (DNR) to continue to enter into reimbursement agreements with applicants for DNR's preliminary work on oil and gas pipeline right-of-way lease applications. DNR's preliminary work streamlines the application process. An effective permitting process is critical to revitalizing the oil and gas industry and growing Alaska's economy. DNR's current authority to enter into reimbursement agreements expired on December 31, 2003. The bill contains a retroactive provision to ensure there is no "window" period when reimbursement agreements could not be entered into by DNR.

AS 38.35 requires pipeline right-of-way lease applicants to submit detailed applications that include significant engineering and design work. Substantial investments of time and money are needed even before an application is officially submitted to DNR. Costs of pre-application work by state agencies like DNR can range from about \$40,000 for a simple pipeline to several millions of dollars for a project like the proposed Alaska natural gas pipeline. Incomplete applications or applications that must be revised later are costly, create

delays that could cost a producer the construction season, and may directly impact a decision on the feasibility of a project.

DNR's assistance and guidance results in a good working relationship with the applicant. It also results in early communication and explanation of state law requirements to applicants, complete initial applications, quicker processing by DNR, fewer revisions, and a greater chance of approval of the project by DNR.

I urge your prompt and favorable action on this matter.

Sincerely yours,  
/s/  
Frank H. Murkowski  
Governor"

**HB 383**

HOUSE BILL NO. 383 by the House Rules Committee by request of the Governor, entitled:

"An Act approving an interim classification by the commissioner of natural resources closing certain land within the area of the proposed Bristol Bay (Alaska Peninsula) competitive oil and gas areawide lease sale to oil and gas exploration licensing and shallow natural gas leasing; and providing for an effective date."

was read the first time and referred to the House Special Committee on Oil & Gas and the Resources Committee.

The following fiscal note(s) apply:

1. Zero, Dept. of Natural Resources

The Governor's transmittal letter dated January 12, 2004, follows:

"Dear Speaker Kott:

Under the authority of article III, section 18, of the Alaska Constitution, I am transmitting a bill approving an interim

classification by the commissioner of Natural Resources closing certain land in the Bristol Bay region to oil and gas exploration licensing under AS 38.05.131 through AS 38.05.134 and shallow natural gas leasing under AS 38.05.177. The specific lands affected will be part of a future competitive oil and gas lease sale in the Bristol Bay region. Closure avoids potential conflicts in land use for these areas later, when the proposed competitive oil and gas lease sale occurs.

Under AS 38.05.300(c), a mineral closing order is an interim classification which does not become permanent unless approved by the legislature by the 90<sup>th</sup> day of the next regular session, or adjournment. This legislation will help facilitate needed economic development and job creation in Alaska's Bristol Bay region.

I urge your prompt and favorable action on this measure.

Sincerely yours,  
/s/  
Frank H. Murkowski  
Governor"

**HB 384**

HOUSE BILL NO. 384 by the House Rules Committee by request of the Governor, entitled:

"An Act relating to the schedule of proposed oil and gas lease sales and to a related report to the legislature; and providing for an effective date."

was read the first time and referred to the House Special Committee on Oil & Gas and the Resources Committee.

The following fiscal note(s) apply:

1. Zero, Dept. of Natural Resources

The Governor's transmittal letter dated January 12, 2004, follows:

"Dear Speaker Kott:

Under the authority of article III, section 18, of the Alaska Constitution, I am transmitting a bill relating to the scheduling of proposed oil and gas lease sales. This bill would allow the commissioner of the Department of Natural Resources to produce additional revenues for the State of Alaska from oil and gas lease sales by quickly responding to changing industry, market, and other conditions. New areas, particularly frontier areas of the state, can be brought into production sooner than currently possible. The bill would still permit legislative review of the lease sale program.

Currently, the commissioner is required to prepare a "Five Year Schedule of Proposed Oil And Gas Lease Sales" and submit it to the Legislature in January of the first regular session of each Legislature. A proposed lease sale must be included in the schedule for at least two calendar years before the sale can actually be held. This is a ponderous process that makes it difficult to implement the most effective oil and gas lease sale program possible.

This bill is an important part of our mission to use natural resource wealth to produce long-term, stable revenue sources for the state, local and property tax revenue for municipalities, and high paying jobs for Alaskans.

I urge your prompt and favorable support of this legislation.

Sincerely yours,  
/s/  
Frank H. Murkowski  
Governor"
