SB 100

Message dated June 12 and received June 16, stating:

Dear President Therriault:

On this date I have signed with line item vetoes the following bill passed by the first session of the Twenty-third Alaska State Legislature and am transmitting the engrossed and enrolled copies to the Lieutenant Governor's Office for permanent filing:

HOUSE CS FOR CS FOR SENATE BILL NO.
100(FIN) am H(brf sup maj fld H) "An Act making
capital appropriations, supplemental appropriations,
and reappropriations; capitalizing funds; making
other appropriations; making appropriations under
art. IX, sec. 17c, Constitution of the State of Alaska,
from the constitutional budget reserve fund; and
providing for an effective date."

Chapter 82, SLA 2003
Effective Date: See Chapter

Introduction of the administration's operating budget last March and the Legislature's subsequent deliberations marked a turning point in Alaska's fiscal history. The approved budgets and revenue-related legislation reflect our joint recognition that Alaska's finances must immediately be corrected. We also recognize that we must take these necessary steps now and not wait for a "politically convenient" time - because it will never arrive. This means we must cut spending now, use our reserves prudently now, and get more users to help pay for state services. We also recognize that we must take the steps necessary now to generate revenues from resource development in the near future.

To these ends, I challenged the Legislature to keep Fiscal Year 2004 spending below the current year's and set a goal of not using more than \$400 million of the state's reserve funds, or Constitutional Budget Reserve (CBR). As you know, the state has relied on the CBR since its creation in 1990 to prop up spending at a level which the state could not otherwise afford. Unfortunately, if we were to continue the last Administration's "business as usual" level of spending, the CBR would be depleted in early 2006 and we would need to cut the following year's spending by 40%, sending the state's economy in a downward spiral. To understand this and not take corrective steps would be irresponsible.

For this reason I proposed that we make spending decisions that will enable the CBR's remaining balance to last for five years. If we limit our annual draw to \$400 million, the reserve will be able to serve as "bridge financing" while new resource development causes new revenues to flow into the state's treasury.

While the Legislature did a good job in holding down spending, the Fiscal Year 2004 would have required an estimated CBR draw of \$525 million. As discussed with the Legislature prior to adjournment, my commitment to limit the CBR draw was steadfast. As a result, vetoes are necessary to prudently use these reserves. Accordingly, I have vetoed \$27 million from the capital budget that, when combined with action taken in the operating budget means the CBR balance will be reduced by \$380 million in order to support next year's level of reduced spending.

In reviewing the capital budget, every effort was made to fund projects that are traditional responsibilities of state government, such as transportation and protecting the public's health and safety. We also vetoed a great number of the "discretionary" projects that the Legislature added on behalf of district-related requests because again, we must get state government back to funding the basics of what state government should be doing. As earlier announced, we also vetoed the \$15 million in funding for Community Capital Matching Grants. For the time being, local communities will need to make the same kind of tough choices regarding what they do, just as the state is doing. The responsibility to make these difficult choices was not taken lightly, but it's one we recognized that must be done for the reasons earlier outlined.

The need to cautiously use our reserves made each of the vetoes necessary. The following is additional information about other reductions:

Department of Administration

Electronic Filing of Public Official and Legislative Financial Disclosure Statements and Lobbying Activity Reports

Total veto: \$449,000 General Funds

Reason: Higher priority services

This project was originally proposed to enable electronic filing as a substitute for a reduction in the Alaska Public Offices Commission (APOC) staff and to replace existing overburdened reporting systems. The legislation and APOC budget ultimately approved by the legislature did not alter the APOC's operations as significantly as originally proposed, although agency staffing will be reduced. This project will be started when alternate funding becomes available. A \$1,000 balance is retained in the capital budget so that if Federal or other funding is obtained, the project could be funded through the Legislative Budget and Audit Committee during this interim.

Alaska Land Mobile Radio

Total veto: \$127,000 General Funds

Reason: Other revenues to be available

This reduction to \$400,000 is not expected to result in any service level changes. This appropriation is used to pay management costs for the Alaska Land Mobile Radio project, a long-term effort to improve emergency communications throughout the state. Existing Federal grant funding for this project does not cover management costs. The department will reduce management expenses and seek other funding to cover management costs.

Payroll and Accounting Systems Replacement

Total veto: \$100,000 General Funds

Reason: Other savings available

The department has determined that \$96,000 is expected to remain from the project's FY2003 capital appropriation.

Department of Community and Economic Development

Grants to Local Governments and Grants to Named Recipients
Total veto: \$9,170,050 (\$4,786,250 General Funds; \$3,099,400 AHFC
Dividend; \$804,000 ASLC Dividend; \$480,400
AIDEA Dividend)

Reason: Higher priority state obligations

The Legislature added appropriations for grants primarily to local governments and/or non-profit organizations. The state's need to prioritize scarce revenues means that the state will be less able to fund local priorities until a time when state recurring revenue is sufficient to pay for the state's obligations. As a result, many of these discretionary projects were vetoed.

Power Generation Projects
Total veto: \$1,213,276 General Funds
Reason: Higher priority state obligations

Grants to Copper Valley Electric Association and Kodiak Electric Association for payment or retirement of pre-existing debt are eliminated. The Department of Law has advised that a payment for retirement of a pre-existing debt to which the state is not a party confers no benefit on the public, which violates the public purpose doctrine set out in the Alaska Constitution.

Delta Junction Settlement
Total veto: \$500,000 General Funds

Reason: Department of Law advice regarding legality

The Department of Law advises there are several legal concerns with this appropriation, which is to pay the costs of the settlement agreement for litigation regarding the establishment of a private prison in the vicinity of the city. If a borough were formed, the balance owing on the loan would be converted to a grant. Law again advises this violates the public purpose provision of the Alaska Constitution.

Department of Education and Early Development

Yukon Koyukuk School District, Manley Hot Springs School
Improvements
Total veto: \$27,000 Alaska Student Loan Corporation Dividend
Reason: Review process not followed

State law has established a process by which school district projects are evaluated by the department (AS 14.11). The requesting school district should include this project for review as part of the FY 2005 annual evaluation of school construction and major maintenance projects for future funding consideration. This ensures consistent standards are used in evaluating school district projects.

Section 63

Total appropriation: \$609,248 General Funds

This is a one-year only appropriation to be distributed as a grant to the specific school districts listed. These grants hold harmless those school districts affected by the passage of SB 202 that moved funding for the learning opportunity grant program into the formula-driven state aid for public school program.

Department of Environmental Conservation

*Village Safe Water Projects -- Rural Clinics Sewer and Water Service
Total veto: \$500,000 (\$125,000 Alaska Housing Finance Corporation
Receipts, \$375,000 Federal Funds)*

Reason: Other funding anticipated

This reduces the Village Safe Water projects appropriation to \$78.3 million by eliminating \$500,000 in funding for water and sewer to rural clinics constructed with Denali Commission funding. The Denali Commission health care facility program has received over \$80 million for facility construction. It is anticipated that loss of the small Village Safe Water contribution for water and sewer will not have an appreciable effect on the program, and that water and sewer costs will be provided by the Denali Commission as part of the overall facility costs.

*Municipal Water, Sewer, and Solid Waste Matching Grant Projects
Total veto: \$14,454,200 (\$6,899,900 General Funds; \$2,561,700
AHFC Dividend; \$1,272,600 AIDEA Dividend;
\$3,720,000 Federal Funds)*

Reason: Need to prioritize projects

This reduces the Municipal Water, Sewer and Solid Waste Matching Grant funding to \$9,423,000. This program makes grants to communities for drinking water, wastewater, and solid waste projects. Projects proposed by communities for grant funding are assigned

priority scores as part of an application process. These reductions eliminate lower priority projects, which includes elimination of two solid waste planning projects considered lower environmental and public health priority, as well as a Valdez project that warrants further assessment before proceeding. Finally, the annual allocation for the Municipality of Anchorage was reduced in proportion to the overall program reduction - from \$3,000,000 to \$1,250,000.

Village Safe Water Feasibility Studies

Total veto: \$300,000 (\$75,000 Alaska Housing Finance Corporation Dividend; \$225,000 Federal Funds)

Reason: Lower priority projects

This reduces the amount for Village Safe Water Feasibility Studies to \$2,645,800 by eliminating three projects that would study solid waste management alternatives in rural communities. Solid waste generally is a lesser health and environmental threat than drinking water and wastewater, and solid waste planning projects are considered primarily a local responsibility. Communities may be able to secure financial assistance from federal agencies.

Department of Fish and Game

Maintenance and Deferred Maintenance Projects

Total veto: \$550,000 (\$450,000 General Funds, \$100,000 Fish & Game Funds)

Reason: Higher priority services

The department will phase maintenance work on its facilities, docks, and commercial fishing aircraft and vessels around the state.

Chignik/Cape Igvak Stock Separation Study

Total veto: \$50,000 General Funds

Reason: Funding inadequate

The study relates to socioeconomic issues and the funding level provided by the Legislature is not sufficient to get the job done.

Lower Kenai River Public Use Impact Study

Total veto: \$100,000 Fish & Game Funds

Reason: Study unnecessary as information available

The funding is for a public use impact study on the Kenai River. The results were to be used to facilitate implementation of a guide moratorium on the river. The department believes that the survey is

not necessary to implement a moratorium. Instead, it will work with the Commercial Fisheries Entry Commission, Department of Natural Resources, Governor's Office, and interested legislators to develop options and recommendations that will identify tools to address issues of growth and development of the guided sport fishing industry on a statewide basis.

Office of the Governor

Americans with Disabilities Act Compliance Projects

Total veto: \$250,000 General Funds

Reason: Other priority services

This project funds the renovation and remodeling of state-owned facilities to remove physical barriers to persons with disabilities. In excess of \$12 million has been provided since 1993 and projects will continue to be addressed according to a statewide priority list.

Department of Health and Social Services

Fairbanks Public Health Center Repair

Veto Total: \$110,000 General Funds

Reason: Higher priority services

Other funding will be explored in order to make the needed repairs.

Department of Natural Resources

Division of Parks – Sultana Road Maintenance

Total veto: \$8,000 General Funds

Reason: Higher priority services

Priority is funding for the overall management of the park system and accordingly, this project was vetoed.

Navigable Waters Assertions

Total veto: \$188,700 General Funds

Reason: Other funding available

There were three appropriations in the FY 04 budget that fund, in part, asserting ownership of navigable waters. The two other appropriations address both navigable waters and RS 2477. With veto of this one appropriation, the other two are expected to provide sufficient funding for FY 04 work on assertions of navigable waters and RS 2477 trails.

Recorder's Office Film Conversion

Total veto: \$250,000 General Funds

Reason: Other priority services

The original \$338,000 appropriation would have converted the last ten years of existing film records to digital images. The project now will be phased so that 3-4 years of records are converted.

Land Acquisition on Northern Afognak Island

Total veto: \$12,450,000 (\$2,000,000 Federal Receipts; \$10,450,000 EVOS)

Land Acquisition in Diamond Creek

Total veto: \$450,000 (Federal receipts)

Reasons: Policy Disagreement

The first appropriation was for the purchase of land on Northern Afognak Island for the Perenosa Bay project. The second eliminates funding for land acquisition in the Diamond Creek project as part of the Kachemak Heritage Land Trust's development. For too long state government has allowed (and in the case of the Exxon Valdez Oil Spill Fund actually encouraged) public monies to be used to acquire private land, particularly in Prince William Sound. This is poor policy. We need to maximize the amount of land in private ownership.

West Icy Bay Remediation

Total veto: \$150,000 General Funds

Reason: Management/other savings

The Department of Natural Resources and the Department of Law have reviewed the West Icy Bay remediation settlement and believe it may be possible to complete the summer 2003 effort for \$764,000. After this work is completed, an evaluation will be made to see if the entire project can be completed next year within this amount.

Airborne Geophysical Surveys

Total veto: \$100,000 General Funds

Reason: Management/other savings

DNR will use the remaining \$100,000 in funding to provide information to the mining community by updating the six airborne geophysical surveys that were flown in 1994 and 1995, instead of doing new surveys.

Department of Public Safety

*Fairbanks Roof Replacement**Total veto: \$510,000 General Funds**Reason: Insufficient funding to complete project*

The roof replacement is estimated to cost over \$1 million. The project cannot begin without full funding.

*New Ketchikan Public Safety Building Construction**Total veto: \$1,227,500 General funds**Reason: Project scope change*

Original financing plans for a new building in Saxman have not been successful. Less expensive alternatives are being developed during this interim. As a result, \$1.2 million remains for a new building.

Department of Revenue

*Child Support Enforcement Case File Imaging Project**Total veto: \$50,000 (\$17,000 Receipt Supported Services; \$33,000 Federal Funds)**Reason: Management/other savings*

To achieve savings, the design phase will now be completed by in-house staff, which will extend the project to three years instead of two years. As a result, efficiencies expected to be gained from the project will be delayed until fully implemented.

*Child Support Enforcement Computer Replacement Project-Phase 4**Total veto: \$80,000 (\$27,200 Receipt Supported Services; \$52,800 Federal Funds)**Reason: Management/other savings*

Reduction will defer replacement of older computer hardware.

Department of Transportation and Public Facilities

*Weights and Measures Test Unit Replacement Project**Total veto: \$75,000 General Funds**Reason: Higher priority services*

The department will seek lease purchase financing for replacement of Juneau's 1980 volumetric prover truck.

*Materials Stockpiles**Total veto: \$300,000 General Funds**Reason: Higher priority services*

Purchase of materials will become part of a specific maintenance or construction project's cost. Because the purchases now will be bid separately, economies of scale will not be realized. If project-related costs increase, there may be a slight increase in summer road maintenance costs.

*Federal Programs State Match**Total veto: \$8,980,500 General Funds**Reason: Other savings/sharing in costs*

The savings are the result of a decrease in Federal funding that the state expects from the highway and aviation programs (the state's funds are a percentage of the federal funds). Only the match required for basic highways and aviation programs remain. This lower funding level will not include the match for any new Federal earmarked projects or Denali Commission transportation funds that may become available to the State in future congressional appropriation bills. Federal aid will continue to be available for the Community Transportation Program (CTP) and Trails and Recreational Access for Alaska (TRAAK), but reductions will also be taken in the state match amount available. The department encourages local governments with road powers to participate in meeting 50% of the programs' match requirements for local roads and trail enhancements. This will reflect sharing of financial responsibility already found in the Airport Improvement Program and Harbor Corp of Engineer Program.

University of Alaska

Alaska Geospacial Information Coalition

Total veto: \$500,000 General Funds

Reason: Legal concerns

While the goal of this project to improve the state's mapping has merit, the Department of Law has raised issues regarding the award of a grant to a group of private firms. This raises competitive bidding issues because it appears specific private firms are attempting to receive public money and an exclusive right to sell geospacial information produced. While public agencies support the project, it is inadvisable to approve the funding at this time because of these concerns.

*Kenai Vocational Education Project**Total Veto: \$50,000 ASLC Dividend Funds**Reason: Higher priority services*

The University of Alaska has a priority setting process by which it identifies capital and operating priorities. The local college is encouraged to work through this process so that its request can be evaluated and integrated into the University system's overall program. This type of priority setting process is especially important when dollars are scarce.

Alaska Court System

*Deferred Maintenance Projects**Total veto: \$230,000 General Funds**Reason: Higher priority services*

Substandard lighting in the southeast courts and a roof repair in a Fourth District court facility will not take place.

*Justice Information and Communication Project**Total veto: \$50,000 General Funds**Reason: Higher priority services*

Communication systems may not be replaced within timeframes necessary for the scheduled deployment of the court's new case management system. A delayed implementation schedule may impact agencies relying on the court's case management system to be integrated into other state justice projects such as those within the Department of Public Safety and Child Support Enforcement Division.

The fiscal decisions we make over the next few years will be critical in determining the kind of Alaska we will leave for the next generation. These choices, including my vetoes of many worthy projects included in the capital budget, are in line with my view that we each must take responsibility today, for Alaska's tomorrow.

Sincerely yours,

/s/

Frank H. Murkowski

Governor

HB 75

Message dated June 12 and received June 16, stating:

Dear President Therriault:

On this date I have signed with line item vetoes the following bill passed by the first session of the Twenty-third Alaska State Legislature and am transmitting the engrossed and enrolled copies to the Lieutenant Governor's Office for permanent filing:

CONFERENCE CS FOR SPONSOR SUBSTITUTE
FOR HOUSE BILL NO. 75 "An Act making capital
appropriations for the operating and loan program
expenses of state government, for certain programs,
and to capitalize funds; and providing for an effective
date."

Chapter No. 83, SLA 2003
Effective Date: See Chapter

Introduction of the administration's operating budget last March and the Legislature's subsequent deliberations marked a turning point in Alaska's fiscal history. The approved budgets and revenue-related legislation reflect our joint recognition that Alaska's finances must be immediately corrected. We also recognize that we must take these necessary steps now and not wait for a "politically convenient" time - because it will never arrive. This means we must cut spending now, use our reserves prudently now, and get more users to help pay for state services. We also recognize that we must take the steps necessary now to generate revenues from resource development in the near future.

To these ends, I challenged the Legislature to keep Fiscal Year 2004 spending below the current year's and set a goal of not using more than \$400 million of the state's reserve funds, or Constitutional Budget Reserve (CBR). As you know, the state has relied on the CBR since its creation in 1990 to prop up spending at a level which the state could not otherwise afford. Unfortunately, if we were to continue the last administration's "business as usual" level of spending, the CBR would be depleted in early 2006 and we would need to cut the following year's spending by 40%, sending the state's economy in a downward spiral. To understand this and not take corrective steps would be irresponsible.

For this reason I proposed that we make spending decisions that will enable the CBR's remaining balance to last for five years. If we limit our annual draw to \$400 million, the reserve will be able to serve as "bridge financing" while new resource development causes new revenues to flow into the state's treasury.

While the Legislature did a good job in holding down spending, the Fiscal Year 2004 still would have required an estimated CBR draw of \$525 million. As discussed with the Legislature prior to adjournment, my commitment to limit the CBR draw was steadfast. As a result, vetoes are necessary to prudently use these reserves. Accordingly, I have vetoed \$138 million in general funds, of which \$112 million is from the operating budget. When compared to Fiscal Year 2003, overall spending has been reduced \$198 million, of which \$173 million is in the operating budget. It is important to note that even deeper reductions were made, but they were offset by increases in formula-driven programs, such as Medicaid. In addition, 209 positions have also been eliminated in executive agencies.

Accordingly, the CBR's overall balance will be reduced by \$380 million, taking it from its \$2.2 billion Fiscal Year 2003 ending balance to \$1.8 billion projected for Fiscal Year 2004.

Disciplined management, clear priority setting, and ensuring every dollar that is spent gets results is how the administration will work to minimize the impact of these reductions on the level of services delivered. While it will mean changes in how the state does business, be assured essential obligations of state government will be met. Winter maintenance will continue on state roads and highways and state parks will remain open.

Funding for K-12 education is held harmless from the budget reductions taken elsewhere in the operating budget. While we have been able to fully fund education this time around, it is the local school, with its teachers, school board members, superintendents, administrators, parents, and local communities, that carry the heavy responsibility of using these funds wisely to deliver the desired result of a better education for Alaska's children.

It's important that we not assume the answer to meeting the educational needs of Alaska's children is always more money. At the risk of stating the obvious, we must ensure the dollars currently being invested in education *result* in educated children. Currently there is great disparity in student performance from school to school and district to district. Some of our schools are only able to show less than 10 percent of their students proficient on a benchmark exam, while other schools are able to show more than 90 percent of their students proficient on the same exam. We must ensure resources get shifted away from administration over to the classroom and that our schools are working as smart as they can and using their financial resources in the best interest of our children.

We also are sensitive that some of our vetoes will greatly impact seniors that currently receive a Longevity Bonus check, as well as local governments that significantly rely on state revenue sharing to pay for local services and capital projects. To help seniors transition, we are proposing that \$10 million in one-time Federal funds be made available through the state's General Relief Assistance program. Income-eligible seniors would be able to receive a monthly payment of up to \$120. The payment also would be available to all eligible seniors, not just those that met the age cut-off for the Longevity Bonus program, for a temporary period until June 2004.

To assist local communities in transitioning from reliance on state revenue sharing, the administration also has proposed that \$15 million in these Federal funds be distributed to local communities, with a \$40,000 minimum payment to smaller communities. Veto of the funding for these long-standing programs was certainly a difficult decision, but the administration believes that local communities also must be more self-reliant and take responsibility for prioritizing what their governments do based on what they can afford.

The need to cautiously use our reserves made each of these, as well as the other vetoes necessary, some of which are discussed below:

Department of Administration

Public Communications Services, Satellite Infrastructure

Total veto: \$200,000 General Funds

Reason: Reduced costs

Level of projected current year costs is below amount approved and these savings are expected to continue in Fiscal Year 2004. This pays for satellite transponder services for public TV and radio and distance education. This reduction is not expected to result in any service level change.

Department of Community and Economic Development

Trade and Development

Total veto: \$115,400 General Funds

Reason: Overlapping services

Eliminates a grant to the World Trade Center (WTC) Alaska. While the WTC has coordinated its activities with the Division of Trade and Development, especially in seafood promotion, the division believes it will be able to expand its work in this area through Federal funding.

Capital Project Matching Grant Program Fund Capitalization

Total veto: \$15,000,000 General Funds

Reason: Return to core state responsibilities

This appropriation provides funding that is distributed to local governments to meet priorities established at the local level (specific project appropriations are made in the capital budget). As the state tightens its belt, it is necessary to return to funding the state's traditional responsibilities. Until state recurring revenues are sufficient to pay for state responsibilities, local governments will need to find other funding to meet local priorities.

Department of Corrections

Community Residential Centers

Total veto: \$400,000 General Funds

Reason: Management/other savings

While this reduction will impact the department's flexibility in utilizing Community Residential Center (CRC) beds, careful and aggressive utilization management will enable the department to absorb this reduction with no appreciable affect on public safety. The department anticipates a reduction of one to two beds in each facility. If necessary, increased use of electronic monitoring will be used as an alternative.

Department of Education and Early Development

*Quality Schools**Total veto: \$146,200 General Funds**Reason: Other funds available*

The cost to administer charter school grants will be shifted to the federally funded program. There should be no change in the level of technical assistance or support currently provided to charter schools.

*Education Special Projects**Total veto: \$50,000 General Funds**Reason: Return to core state services*

Eliminates a contracted service that provides curriculum materials and instruction support for the Alaska Minerals and Energy Resources program. Schools and teachers utilizing this program will have to secure the materials through a private vendor.

*Administrative Services**Total veto: \$54,800 General Funds**Reason: Management/other savings*

With two major programs being transferred to other departments beginning in FY 2004, fewer administrative staff will be needed to support the remaining programs.

*Information Services**Total veto: \$121,100 General Funds**Reason: Management/other savings*

A lower level of computer/technology support to department staff may be realized. This includes database development and programming services, technical training, and individual user support.

*District Support Services**Total veto: \$70,000 General Funds**Reason: Management/other savings*

As a result of changing pupil transportation from a reimbursement program to a grant program beginning in FY 2004, less administrative support will be required. This reduction will have no impact on services to school districts.

Department of Fish and Game

*Commercial Fisheries**Total veto: \$500,000 General Funds**Reason: Other revenues available/management savings*

A \$235,000 in general fund savings is possible because Federal funds are available for Bering Sea and Aleutian Island crab fisheries research. A \$130,000 savings in the Arctic-Yukon-Kuskokwim fisheries management component for salmon stock assessment programs on the Yukon, Tanana, and Anvik Rivers is possible by also transferring the project's costs to federal research grants.

In Headquarters Fisheries Management, a \$115,000 savings results from elimination of funds that previously supported Division of Habitat staff work on the review and coordination of Title 16 and Forest Practices permits (responsibility since transferred to Department of Natural Resources). Another \$20,000 savings will be realized in the division's Statewide Fisheries Library, but library services will continue at the same level due to federal grant funding.

*Boards of Fisheries and Game**Total veto: \$150,000 General Funds**Reason: Management/other savings*

Division of Sport Fish funds will be used to support the Board of Fisheries. This is similar to how the Division of Wildlife Conservation currently provides funding to support the Board of Game.

*Commissioner's Office**Total veto: \$100,000 General Funds**Reason: Management/other savings*

The deputy commissioner position dealing with wildlife issues will be funded with revenue from the Division of Wildlife Conservation.

*Commercial Fisheries Entry Commission**Total veto: \$150,000 Receipt Supported Services**Reason: Management/other savings*

Savings will be realized by decreasing staff months in the commission's Research Section and Data Processing Section and by reducing contractual, equipment, and travel expenditures. These reductions will result in a delayed response or denial of requests and

less timeliness in processing permit and vessel license renewals and adjudication of pending cases. License renewals will take 6 days instead of 4 or 5; up to 20% of public research requests will be denied; delays in major projects will be 3 to 6 months.

Office of the Governor

All Allocations

Total veto: \$125,800 General Funds

Reason: Management/other savings

The reduction reflects an intent to hold the line on increased costs of government and means the Governor's office will internally absorb the increased health insurance cost without additional funding. No change in the level of service is anticipated.

Department of Health and Social Services

Longevity Bonus Grants/Longevity Bonus Grants

Total veto: \$44,800,000 General Funds

Reason: Higher priority state services

This reduction eliminates the funding for this program.

Alaska Longevity Programs/Alaska Longevity Programs Management

Total veto: \$83,400 General Funds

Reason: Management/other savings

Elimination of the Longevity Bonus Grants program will enable savings for postage and the possible elimination of one position.

Behavioral Health/Alcohol Safety Action Program (ASAP)

Total veto: \$355,000 General Funds

Reason: Management/other savings

The ASAP program currently uses intermediaries (case managers) to make treatment or education arrangements for court-ordered clients. In smaller communities, it is possible for the treatment or education programs to work directly with the clients on meeting the court requirements, instead of working through an intermediary.

Behavioral Health/Behavioral Health Medicaid Services

Total veto: \$3,029,900 General Fund Match

Reason: Other revenue available

Savings are the result of the Federal government increasing its share of what it pays for the Medicaid program (to 61.34% from 58.39%). This is the result of the Federal Tax Relief Assistance program passed in May 2003 that temporarily increases the Federal Medicaid share, which allows the state to reduce its share without changing the level of services.

Behavioral Health/Behavioral Health Grants

Total veto: \$541,600 General Funds

Reason: Management savings/program effectiveness

Reduction includes the elimination of two residential alcohol and drug services. The first is to Safe Harbor in Kodiak, where Kodiak residents are not using the services. The second is to the North Slope Borough's program, which has experienced a sharp decline in admissions over the last few years.

Behavioral Health/Behavioral Health Administration

Total veto: \$ 311,500 (\$12,700 General Funds; \$298,800 I/A Receipts)

Reason: Management/other savings

Savings will be realized by eliminating functions for which funding is no longer available, realigning staff assignments, consolidating similar functions as part of the departmental reorganization, and reducing regional mental health grant administration. The division will close two offices, the SE Regional Office in Juneau and the Southcentral Regional Office in Wasilla.

Children's Services/Children's Services Management

Total veto: \$185,900 (\$15,000 Federal; \$170,900 General Funds)

Reason: Management /other savings

As a result of management structure changes, two management positions are being eliminated. The division is streamlining processes, and the reassignment of administrative duties allows the reduction. There will be no reduction to higher priority services such as front line workers.

Children's Services/Front Line Social Workers

Total veto: \$29,800 General Funds

Reason: Higher priority services

This reduction eliminates the program's share of the department's wellness program, which has been eliminated.

Children's Services/Subsidized Adoption and Guardianship

Total veto: \$199,500 General Funds

Reason: Retain core services

Eliminates funding for "Project Succeed" that goes to the Public Defender Agency and Office of Public Advocacy. The reduction reflects the Office of Children's Services' first priority of serving and protecting the state's most vulnerable children, those who are at risk of abuse and neglect. Remaining resources and services will be focused on more urgent and higher priority client needs, preventative and support programs for children and families.

Children's Services/Residential Child Care

Total veto: \$403,300 (\$290,800 General Fund Match; \$112,500 General Funds)

Reason: Other revenue available/Management/other savings

A \$290,800 savings is possible due to the increased share the Federal government will be paying for Medicaid, as discussed earlier. The remaining savings will come from a reduction in the funding for residential child care "Held Beds," less administrative travel, and in the funds set aside to provide additional supervision of a child in a facility.

Children's Services/Women, Infants, and Children

Total veto: \$114,400 (\$2,300 General Funds; \$112,100 General Funds Match)

Reason: Return to higher priority services

To retain priority services of on-going nutrition and food to qualified clients of the WIC program, the reduction will result in fewer printed publications and curtailment of enhancements to the nutrition web site. In addition, "Sippy cups," provided to infants to promote dental health, will not be distributed.

Children's Services/Child Protection Legal Services

Total veto: \$474,200 General Funds

Reason: Return to core services

This eliminates funding for the Public Defender Agency and the Office of Public Advocacy. As a result of prioritizing services, the Office of Children's Services' will use remaining resources to meet its foremost commitment to serve and protect the state's most vulnerable children, those who are at risk of abuse and neglect.

Health Care Services/Medicaid Services

Total Veto: \$3,129,100 General Fund Match

Reason: Other revenue available

Savings are possible because the Federal government is increasing its share of what it pays for the Medicaid program, as discussed earlier.

Health Care Services/Catastrophic and Chronic Illness Assistance

Total veto: \$529,000 General Funds

Reason: Cost containment

Program changes will reduce the scope of the CAMA program to provide health care to very poor individuals who have no other coverage and have a chronic or terminal illness. In order to continue to serve this segment of the population, the program will be changed to achieve savings by excluding transportation costs, elimination of inpatient and nursing home care, and limiting pharmacy benefits to three approved prescriptions per month.

Health Care Services/Medical Assistance Administration

Total veto: \$100,700 (\$95,400 GF Match; \$5,300 General Funds)

Reason: Management/other savings

Eliminates the division's share of the cost in the department's wellness program and deletes one vacant research analyst position.

Health Care Services/Health Purchasing Group

Total veto: \$277,400 General Fund Match

Reason: Management/other savings

A full review of senior services programs' needs within the department's new organizational structure is underway. Savings are expected to result from the deletion of one vacant position, contractual and other costs.

Health Care Services/Certification and Licensing

Total veto: \$10,400 General Fund Match

Reason: Management/other savings

The savings are possible due to vacancies in staffing level, and a small reduction in service contracts. These changes will have minimal impact on service.

Health Care Services/Hearings and Appeals

Total veto: \$8,500 General Funds Match

Reason: Salary savings

Savings are possible due to the retirement of a long-time employee. No impact on services is expected.

Health Care Services/Women's and Adolescents Services

Total veto: \$45,000 General Fund Match

Reason: Management/other savings

The new Division of Health Care services will blend potentially duplicative positions. Pending a full analysis of which duties/responsibilities will be reallocated and/or combined, this savings in salary costs is anticipated.

Juvenile Justice/Probation Services

Total veto: \$37,200 General Funds

Reason: Management/other savings

This reduces the Juvenile Justice share in the cost of the department's wellness program.

Public Assistance/Child Care Benefits

Total veto: \$2,145,700 (\$145,700 GF; \$2,000,000 I/A Receipts)

Reason: Management/other savings

The Division of Public Assistance is undertaking a major reorganization in which childcare programs from the Department of Education and Early Development will be incorporated into the division's current service delivery. This will streamline management and eliminate task duplication, resulting in the elimination of two positions. The result will be increased accountability in program management, better staff performance, better service delivery, and a less hierarchical structure.

Public Assistance/General Relief Assistance

Total veto: \$50,000 General Funds

Reason: Return to core department services

This reduction eliminates a grant to Alaska Legal Services for legal assistance for individuals pursuing Supplemental Security Income disability benefits.

Public Assistance/Public Assistance Administration

Total veto: \$50,000 (\$40,000 Federal Funds; \$10,000 General Fund Match)

Reason: Consolidation/management savings

This reduction eliminates the Deputy Director position as a result of the Division of Public Assistance's reorganization. The goal is to eliminate a layer of mid-management to increase accountability in program management and have a less hierarchical structure.

Public Assistance/Public Assistance Field Service

Total veto: \$175,200 (\$100,000 General Fund Match; \$75,200 General Funds)

Reason: Consolidation/management savings

Savings will be achieved by intensive management of staff vacancies and internal transfers of staff to implement the envisioned reorganizational changes. Implementation of the realignment process itself will balance achieving the desired internal result with stable service delivery to our clients.

Public Assistance/Public Assistance Data Processing

Total veto: \$88,000 (\$38,000 Federal; \$38,000 General Fund Match; \$12,000 General Funds)

Reason: Management/other savings

Savings will be realized as a result of the division's reorganization. One vacant full-time and one part-time vacant position will be eliminated.

Public Assistance/OAA-ALB Hold Harmless

Total veto: \$940,000 General Funds

Reason: Program elimination

Due to elimination of the Longevity Bonus program, this program and its funding can be eliminated.

Senior & Disabilities Services/Senior & Disabilities Medicaid Services

Total veto: \$5,550,200 General Fund Match

Reason: Other revenue available

Savings are possible because of the Federal government's increase in its share of what it pays for the Medicaid program as previously discussed.

Senior & Disabilities Services/Senior & Disabilities Services Administration

Total veto: \$180,200 (\$125,400 General Fund Match; \$54,800 General Funds)

Reason: Management/other savings

Staffing will be consolidated or reduced in the DD Waiver and Waitlist, DD grant management, and accounting. Additional savings will be realized by ending the consumer satisfaction survey and partially replacing it with the mental health statistical indicator project and re-engineering staff quality assurance efforts. The southeast office will be consolidated with the central office in Juneau.

Senior & Disabilities Services/Protection, Community Services & Administration

Total veto: \$1,208,500 (\$16,700 General Fund Match; \$1,191,800 General Funds)

Reason: Maintain higher priority client services/cost containment

Due to the reorganization of senior and disability services, efficiencies are possible. The division will take reductions in administrative costs to protect funding for direct client services. There may be some impact on consultation and processing time. A savings of \$383,500 with no reduction in services in the Personal Care Attendant grant program will be possible due to new Personal Care Attendant regulations that will be finalized by December 31, 2003 (Medicaid funding will be available which reimburses at a higher rate). A reduction of \$500,000 in the General Relief Program is possible due to refinancing from Medicaid, which will also save general fund dollars.

Senior & Disabilities Services/Home and Community Based Care

Total veto: \$333,900 General Funds

Reason: Other revenue available

This reduces grants to Adult Day programs by \$141,300 and Care Coordination by \$192,600. Funds can be replaced for both grant programs by federal funds that are now available for innovative respite programs. These reductions will have no impact on clients.

State Health Services/Nursing

Total veto: \$185,000 (\$110,700 General Funds; \$74,300 I/A Receipts)

Reason: Management/other savings

This eliminates two vacant staff positions, which will have minimal impact on direct services. The division is currently reviewing management layers in the nursing program to streamline decisions and accountability.

*State Health Services/Public Health Administrative Services**Total veto: \$38,500 General Funds**Reason: Management/other savings*

This reduces the division's share in the cost of the department's wellness program.

*State Health Services/Community Health/Emergency Medical Services**Total veto: \$57,600 General Funds**Reason: Management/other savings*

This reduces administrative and technical support for the Section of Community Health and EMS programs. There will be no change in the level of direct services to the public since the position was vacant.

*State Health Services/Community Health Grants**Total veto: \$500,000 General Funds**Reason: Other revenue available*

This supplants \$500,000 in general funds for grants to Maniilaq and Norton Sound with Tobacco Education and Cessation funding. There will not be a programmatic impact on public health nursing or these grantees as a result of this fund source shift. This change will reduce Tobacco Prevention and Control program from \$4.3 million to \$3.8 million in FY04.

Administrative Services

The following administrative reductions were identified because they would impact core responsibilities the least. They were also taken where duplicate systems are available to provide similar services at less cost, or, in the case of the data warehouse programs, where they are not functioning as effectively as envisioned. Individual component reductions are identified below:

*Administrative Services /Office of Program Review**Total veto: \$108,800 (\$15,400 Federal; \$23,100 General Fund Match; \$70,300 General Funds)**Reason: Management/other savings*

The reduction results in the consolidation of administrative functions in the Juneau Commissioner's office and eliminates a coordinator position in Anchorage.

*Administrative Services/Rate Review**Total veto: \$54,000 (\$27,000 Federal, \$27,000 General Fund Match)*

Reason: Management/other savings

This reduction eliminates a vacant internal auditor position.

Administrative Services/Administrative Support Services

Total veto: \$110,000 General Funds

Reason: Management/other savings

This reduces information technology support for the data warehouse program and termination of the department's wellness contract.

Administrative Services/Personnel and Payroll

Total veto: \$100,000 General Funds

Reason: Management/other savings

This reduction eliminates the human resource training program.

Administrative Services/Audit

Total veto: \$20,000 General Funds

Reason: Management/other savings

This reduction eliminates a clerk position in the audit unit.

Administrative Services/Health Planning & Facilities Management

Total veto: \$80,000 General Funds

Reason: Management/other savings

This reduction eliminates research analysis of the data warehouse program.

Boards and Commissions/Commission on Aging

Total veto: \$11,400 General Funds

Reason: Management/other savings

Contractual services will be reduced.

Department of Labor and Workforce Development

Occupational Safety and Health

Total veto: \$87,000 General Funds Program Receipts

Reason: Potential other funds available

Reductions will be taken in the issuance of the certificates of fitness for asbestos abatement, hazardous painters, and explosive handlers. The department will attempt to replace these funds with additional Worker's Safety funds and/or federal Occupational Safety and Health funds.

Various Department Programs

*Total veto: \$113,000 General Funds, General Fund Match and
General Fund/Program Receipts*

Reason: Management/cost savings

The contractual health insurance cost increases supported with general funds will be absorbed by the department. Absorbing this \$80,000, and

an additional \$33,000 for rent costs may result in decreased personnel, particularly in the Wage and Hour Administration. These reductions may increase response time for work permits from one to three days.

Vocational Rehabilitation Client Services

Total veto: \$165,000 General Funds

Reason: Management/ Other savings

The program will absorb the reduction through management efficiencies, which will include curtailment of travel to outlying areas and reduction in training.

Department of Law

All Divisions

Total veto: \$262,400 General Funds

Reason: Management/other savings

The department will manage absorption of the additional health insurance cost holding positions vacant for a longer period of time. A \$108,200 savings in the Civil Division will be achieved by replacing hardcopy law books with an electronic format.

Department of Military and Veterans Affairs

Alaska National Guard, Army Guard Facilities Maintenance

Total veto: \$50,000 General Funds

Reason: Management/other savings

Janitorial support services will be reduced for state armories. Facilities currently receiving five days of service will be reduced to three and facilities currently receiving three days of service will be reduced to two.

Alaska National Guard, Air Guard Facilities Maintenance

Total veto: \$150,000 General Funds

Reason: Management/other savings

Janitorial support services will be reduced for state armories. Facilities currently receiving five days of service will be reduced to three and facilities currently receiving three days of service will be reduced to two.

Department of Natural Resources

Management and Administration, Information Resource Management

Total veto: \$65,000 General Funds

Reason: Management/other savings

One Cartographer position in the Land Records Information Section (LRIS) will be eliminated. Although the loss of one cartographer means slower initial update times for graphic land record changes, LRIS will work with other divisions to better manage the workload and minimize the impacts of this reduction.

Resource Development, Geological Development

Total veto: \$150,000 General Funds

Reason: Management/other savings

The Division will keep the Division Director position vacant in FY04 while evaluating the future management structure of the division. Another \$15,000 in program receipts is eliminated because revenues from the sale of publications are down as customers are accessing publications digitally.

Fire Suppression, Fire Suppression Preparedness

Total veto: \$300,000 General Funds

Reason: Cost savings

There are contract cost savings for statewide aircraft availability for retardant air tankers and a utility fixed-wing aircraft that were not known when the budget was prepared.

Fire Suppression, Fire Suppression Preparedness

Total veto: \$90,000 General Funds

Reason: Management/other savings

Area Office Fire Warehouses in Glennallen, Delta, Kenai, and McGrath will become initial attack fire caches. The warehouse functions being provided at these locations will be consolidated to Palmer and Fairbanks. By stationing cache vans at strategic places, the

department will attempt to minimize any impacts. Four seasonal employees who issue burning permits will be eliminated, as the newly implemented web-based burn permit system will accommodate this reduction in service to the public.

Department of Public Safety

Village Public Safety Officer Contracts

Total veto: \$962,000 General Funds

Reason: Management/program effectiveness

This veto reduces the VPSO Contracts to \$5,436,400. VPSO to be eliminated are with the following non-profit organizations: Chugachmiut (\$181,600), Kodiak Area Native Association (\$332,800), and Central Council Tlingit Haida Indian Tribes of Alaska (\$447,600). This reduction will eliminate the grants that serve Kodiak Island, Southeast Alaska, and Southcentral Alaska areas. These areas report the lowest activity in offenses, searches and rescues, calls for service of all the non-profits and at least 3 of 15 positions are vacant on average at any one time. First response that previously was provided by a VPSO will now come from a trooper traveling from the hub communities, a Village Police Officer (VPO) that is funded by the community, or a locally funded police officer. Many rural communities are already without a VPSO and rely on VPOs, volunteers, or Troopers to respond. The department is also encouraging impacted communities to seek Federal or other funds to support a continued first responder effort.

Department of Revenue

Revenue Operations, Treasury Management

Total veto: \$70,800 General Funds

Reason: Management/other savings

Use of outside consultants for information technology problem solving and repair needs will be reduced. Other savings will come from holding vacant positions unfilled for longer periods of time.

Revenue Operations, Tax Division

Total veto: \$60,000 General Funds

Reason: Management/other savings

SB 168 authorizes the division to increase investigation effort dedicated to enforcement of the new Tobacco Stamp law. By using existing gaming and the new investigators for both gaming and tobacco stamp investigations, one of the new positions will be left unfilled. Minimal impact is anticipated in the level of gaming and tobacco stamp investigations.

Administration and Support, Administrative Services

Total veto: \$25,000 General Funds

Reason: Management/other savings

The division will eliminate a vacant position. Other staff will absorb duties.

Department of Transportation and Public Facilities

Highways and Aviation, Traffic Signal Management

Total veto: \$342,000 General Funds

Reason: Reduce to amount necessary to provide core services

These reductions in the operating budget affect one program in each of the three regions. 1) A reduction of \$167,000 for maintenance of state-owned traffic signals in Anchorage (a reduction to FY 02 levels). 2) A currently vacant management position, costing \$100,000, in the Southeast region maintenance and operations budget, could remain unfilled and have minimum impact on the traveling public. 3) A \$75,000 savings will result from allowing the Ruby-Poorman Road to thaw open in the spring, reducing grading of the road during the summer, and elimination of a piece of equipment and its corresponding fuel costs. The road will continue to be maintained although the surface will be rougher.

Legislature

All Allocations

Total veto: \$900,000 General Fund

Reason: Management/other savings

This reduction was agreed to by the Legislature that will realize internal savings. No significant change in the level of service is anticipated.

Alaska Housing Finance Corporation

*Debt Service**Total veto: \$3,000,000 AHFC Dividend**Reason: Management/other savings*

The actual cost of the debt service on bonds sold in FY 2003 was lower than projected due to the decline in interest rates.

Debt Service authorized by ch. 115, SLA 2002

*Debt Service**Total veto: \$2,298,922 General Funds**Reason: Return to core state services*

The \$2.3 million in line item vetoes of projects authorized in ch. 115, SLA 2002 (HB 528) were based on an assessment of project priorities and an analysis of the relative ability of the entities to pay their own debt service or loan repayments. University projects (Anchorage Community and Technical College Center purchase and Juneau Readiness Center Combined Facility) were very high priorities and were funded. Three local harbor projects that had voter approval were also funded (Nome, Chignik and False Pass). Power projects for utilities with ratepayers and the ability to build debt payments into their rate structures were not funded. These are - Kodiak Electric Association, Nyman Combined Cycle Cogeneration Plant - \$532,114; Cordova Electric Cooperative, Power Creek Hydropower Station - \$959,376; Copper Valley Electric Association, cogeneration projects - \$304,307. Likewise the Port of Anchorage expansion project - \$503,125 - was not funded. Metlakatla Power and Light utility plant additions (\$696,764) was funded at the request of the congressional delegation as a special case to maintain the utility's eligibility to receive additional RUS loans.

Sincerely yours,

/s/

Frank H. Murkowski
Governor

HB 76

Message dated June 12 and received June 16, stating:

On this date I have signed with line item vetoes the following bill passed by the first session of the Twenty-third Alaska State Legislature and am transmitting the engrossed and enrolled copies to the Lieutenant Governor's Office for permanent filing:

CONFERENCE CS FOR SPONSOR SUBSTITUTE
FOR HOUSE BILL NO. 76 "An Act making
appropriations for the operating and capital expenses
of the state's integrated comprehensive mental health
program; and providing for an effective date."

Chapter No. 84, SLA 2003
Effective Date: 07/01/03

Introduction of the administration's operating and capital budgets last March and the Legislature's subsequent deliberations marked a turning point in Alaska's fiscal history. The approved budgets and revenue-related legislation reflect our joint recognition that Alaska's finances must be immediately corrected. We also recognize that we must take these necessary steps now and not wait for a "politically convenient" time - because it will never arrive. This means we must cut spending now, use our reserves prudently now, and get more users to help pay for state services. We also recognize that we must take the steps necessary now to generate revenues from resource development in the near future.

This holds true for the state's mental health programs and future decisions on how to allocate funding from the Mental Health Trust. In the near term, the state will be unable to use its general funds for new or expanded mental health programs - and it will be a challenge to maintain even the current level of services we have today. Just as with all other state services, we must evaluate all programs in terms of how effective they are in achieving the desired results, a goal that I know the Mental Health Trust Authority shares. It also will be necessary for the Mental Health Trust to step forward and use the Trust's earnings to increase financial support for its programs. With this in mind, the following reductions have been made:

Department of Health and Social Services

Behavioral Health/Behavioral Health Grants

Total veto: \$39,200 General Fund/Mental Health

Reason: Management savings/program effectiveness

The reduction will eliminate some contracts no longer necessary and will reduce funding for "Communities Organized for Health Options Alcohol and Drug Abuse" grants to a level that will fund a substance abuse counselor in the integrated agency and eliminate other support funding.

Behavioral Health/Behavioral Health Administration

Total veto: \$825,600 (815,900 General Fund/Mental Health, \$9,700 MHTAAR)

Reason: Management/other savings

Savings will be achieved by integrating mental health and substance providers, reducing their overhead. This will reduce the total number of grant awards administered by the division and eliminate a grant administrator position. Further reductions will be made in discretionary professional services contracts, eliminating the mental health consumer affairs function, realigning staff assignments, consolidating functions, and closing the Southeast Regional Office in Juneau and the Southcentral Regional Office in Wasilla.

Behavioral Health/Community Action Prevention & Intervention Grants

Total veto: \$93,300 General Fund/Mental Health

Reason: Management/other savings

Funding for the Central Council of Tlingit-Haida Safety Bear program is being eliminated. Evaluation of the State Incentives Grant project is being reduced, along with this component's support of the Fetal Alcohol Syndrome multi-media campaign.

Behavioral Health/Psychiatric Emergency Services

Total veto: \$80,000 General Fund/Mental Health

Reason: Other savings

Regional coordinators' funding for individualized emergency mental health services will be reduced.

Behavioral Health/Services to the Chronically Mentally Ill

Total veto: \$150,000 General Fund/Mental Health

Reason: Other savings

Savings will be realized through reduced overhead costs due to integrating mental health and substance providers.

Behavioral Health/Alaska Psychiatric Institute

Total veto: \$600,100 General Fund/Mental Health

Reason: Management/other savings

API will reduce the supply of medications provided to patients at discharge, will implement prior authorization of all medical service costs for patients by the API Medical Director, and will analyze pharmacy services throughout the department for possible consolidation. API also will eliminate less critical positions.

Boards and Commissions/Alaska Mental Health Board

Total veto: \$25,900 General Fund/Mental Health

Reason: Management/other savings

Reductions will be made to staff travel. Changes will be made on the number, length, and location of board meetings. Contractual services and other purchases will be limited.

Boards and Commissions/Advisory Board on Alcoholism and Drug Abuse

Total veto: \$21,700 General Fund/Mental Health

Reason: Other savings

Contractual services will be reduced.

Boards and Commissions/Suicide Prevention Council

Total veto: \$30,700 General Fund/Mental Health

Reason: Other savings

The scope of anticipated professional service contract(s) will be reduced. This reduction might be managed by consolidation of services with the Division of Behavior Health.

Department of Law

Civil Division, Human Services Section

Total veto: \$600 General Fund/Mental Health

Reason: Other savings

The department is absorbing just over half of the increase for employee health insurance. This \$600, attributable to the mental health budget, will be offset with savings achieved by replacing hardcopy law books with an electronic format.

The fiscal decisions we make over the next few years are critical in determining the kind of Alaska we will leave for the next generation. These choices, including the vetoes outlined above, are in line with my view that we each must take responsibility today, for Alaska's tomorrow.

Sincerely yours,

/s/

Frank H. Murkowski
Governor

Chapter 133, SLA 2003
Effective Date: 07/03/03

HB 9

Message dated July 9 and received July 17, stating:

Dear President Therriault:

Under the authority of art. II, sec. 17, of the Alaska Constitution, I have let the following bill become law without signature:

SENATE CS FOR CS FOR HOUSE BILL NO. 9(FIN) "An Act relating to the registration of individuals who perform home inspections; relating to regulation of contractors; relating to registration fees for specialty contractors, home inspectors, and associate home inspectors; relating to home inspection requirements for residential loans purchased or approved by the Alaska Housing Finance Corporation; relating to civil actions by and against home inspectors and to civil actions arising from residential unit inspections; repealing a law that limits liability for damages based on a duty to inspect a residential unit to damages caused by gross negligence or intentional misconduct; and providing for an effective date."

Chapter No. 134, SLA 2003
Effective Date: See Chapter

I believe this bill could impose additional costs and burdens on the tightly regulated industry of real estate transactions. Under the bill, a person would not be able to perform a home inspection within the state unless that person meets the new requirements and becomes certified as a registered home inspector by the State of Alaska.

As admitted in public testimony, nearly all parts of real estate transactions are currently regulated in Alaska. This is evidenced by the number of pages and complexity of paperwork involved in such transactions. Banks and other lenders currently require various reports for which buyers and sellers pay fees during home sales. Adding home inspectors to the list of state regulated industries may create an unnecessary level of intrusion in the sale of homes. It could likely result in higher inspection fees and higher overall costs for both buyers and sellers of residential properties.

It was stated in the legislative record that the intent of the bill is to provide needed protection to consumers who are considering purchasing a new home. It is my hope the intended result will be achieved. However, I believe in the minds of many Alaskans the added cost to the consumers and the state, and additional government intrusion into this area, may not rise to the level of a compelling public need. For these reasons, I have not signed SENATE CS FOR CS FOR HOUSE BILL NO. 9(FIN) and have allowed it to become law without my signature.

Sincerely,

/s/

Frank H. Murkowski
Governor
