31 (c) The department may collect information to establish and maintain a

1 comprehensive vaccination registry to aid, coordinate, and promote effective and cost-
2 efficient disease prevention and control efforts in the state.

3 (d) The department may not acquire identifiable health information under this
4 section without complying with the provisions of AS 18.15.355 - 18.15.395 and
5 regulations adopted under those statutes.

7 **public health purpose.** The department may acquire and use identifiable health
8 information collected under AS 18.15.355 - 18.15.395 only if the

9 (1) acquisition and use of the information relates directly to a public

13 (3) public health purpose cannot otherwise be achieved at least as well
14 with nonidentifiable health information.

15 **Sec. 18.15.365. Information security safeguards.** (a) The department shall
16 acquire, use, disclose, and store identifiable health information collected under
17 AS 18.15.355 - 18.15.395 in a confidential manner that safeguards the security of the
18 information, and maintain the information in a physically and technologically secure
19 environment.

20 (b) The department shall expunge, in a confidential manner, identifiable health
21 information collected under AS 18.15.355 - 18.15.395 when the use of the information
22 by the department no longer furthers the public health purpose for which it is required.

23 (c) A person who knowingly discloses identifiable health information in
24 violation of this section or a regulation adopted under this section is guilty of a class B
25 misdemeanor. In this subsection, "knowingly" has the meaning given in
26 AS 11.81.900(a).

27 **Sec. 18.15.370. Reportable disease list.** The department shall maintain a list
28 of reportable diseases or other conditions of public health importance that must be
29 reported to the department. The list may include birth defects, cancers, injuries, and
30 diseases or other conditions caused by exposure to microorganisms; pathogens; or
31 environmental, toxic, or other hazardous substances. The department shall regularly

1 maintain and may revise the list. The department may also establish registries for
2 diseases and conditions that must be reported to the department.

3 **Sec. 18.15.375. Epidemiological investigation.** (a) The department may
4 investigate conditions of public health importance in the state through methods of
5 epidemiological investigation. The department may also ascertain the existence of
6 cases of illness or other conditions of public health importance, investigate potential
7 sources of exposure or infection and ensure that they are subject to proper control
8 measures, and determine the extent of the disease outbreak, epidemic, risk to health
9 and safety, or disaster.

10 (b) Investigations under this section may include identification of individuals
11 who have been or may have been exposed to or affected by a condition of public
12 health importance, interviewing and testing those individuals, examining facilities or
13 materials that may pose a threat to the public health, and interviewing other
14 individuals. In conducting the investigations the department may

15 (1) identify all individuals thought to have been exposed to any agent
16 that may be a potential cause of the disease outbreak, epidemic, or disaster;

17 (2) interview, test, examine or screen an individual where needed to
18 assist in the positive identification of those exposed or affected or to develop
19 information relating to the source or spread of the disease or other condition of public
20 health importance; and

21 (3) inspect health care records maintained by a health care provider.

22 (c) When testing, screening, or examining an individual under this section, the
23 department shall adhere to the following requirements:

24 (1) the department may not require the testing, examination, or
25 screening of an individual without the consent of the individual or the individual's
26 legal guardian, except as otherwise provided in this section or other law;

27 (2) the department may require testing, examination, or screening of a
28 nonconsenting individual only upon an order of a state medical officer, and only upon
29 a finding that the individual has or may have been exposed to a contagious disease that
30 poses a significant risk to the public health; the order must be personally served on the
31 person to be tested, examined, or screened within a reasonable period of time before

1 the testing, examination, or screening is to take place;

2 (3) the department shall obtain an ex parte order in accordance with (d)
3 of this section if the individual to be tested, examined, or screened objects to the state
4 medical officer's order;

5 (4) a health care practitioner shall perform an examination under this
6 section; the individual to be examined may, under conditions specified by the state
7 medical officer, choose the health care practitioner who will perform the examination;

8 (5) a testing, examination, or screening program shall be conducted for
9 the sole purpose of identifying a condition of public health importance that poses a
10 threat to the public health and may be avoided, cured, alleviated, or made less
11 contagious through safe and effective treatment, modifications in individual behavior,
12 or public health intervention;

13 (6) before testing, examination, or screening, the department shall
14 explain to the individual or individual's legal representative the nature, scope,
15 purposes, benefits, risks, and possible results of the testing, examination, or screening;

16 (7) in conjunction with or directly after the dissemination of the results
17 of the testing, examination, or screening, the department shall fully inform the
18 individual or individual's legal representative of the results of the testing, examination,
19 or screening.

20 (d) A judicial officer may issue an ex parte order for testing, examination, or
21 screening upon a showing of probable cause, supported by oath or affirmation, that the
22 individual has or may have been exposed to a contagious disease that poses a
23 significant risk to the public health. The court shall specify the duration of the ex
24 parte order for a period not to exceed five days. To conduct the testing, examination,
25 or screening of an individual who is not being detained under an order of isolation or
26 quarantine, the court may order a peace officer to take the individual into protective
27 custody until a hearing is held on the ex parte petition if a hearing is requested.

28 (e) The individual subject to the ex parte order must be given, with the petition
29 and order, a form to request a hearing to vacate the ex parte order. If a hearing is
30 requested to vacate the ex parte order, the court shall hold the hearing within three
31 working days after the date the request is filed with the court. The public shall be

1 excluded from a hearing under this subsection unless the individual subject to the ex
 2 parte order elects to have the hearing open.

3 **Sec. 18.15.380. Medical treatment.** (a) A health care practitioner or public
 4 health agent who examines or treats an individual who has or may have been exposed
 5 to a contagious disease shall instruct the individual about the measures for preventing
 6 transmission of the disease and the need for treatment.

7 (b) The department may administer medication or other medical treatment,
 8 including the use of directly observed therapy where appropriate, to a consenting
 9 individual who has or may have been exposed to a contagious disease.

10 (c) An individual has the right to refuse treatment and may not be required to
 11 submit to involuntary treatment as long as the individual is willing to take steps
 12 outlined by the state medical officer to prevent the spread of a communicable disease
 13 to others. However, an individual who exercises the right to refuse treatment under
 14 this subsection may be responsible for paying all costs incurred by the state in seeking
 15 and implementing a quarantine or isolation order made necessary by a refusal of
 16 treatment by the individual. The department shall notify an individual who refuses
 17 treatment under this subsection that the refusal may result in an indefinite period of
 18 quarantine or isolation and that the individual may be responsible for payment of the
 19 costs of the quarantine or isolation.

20 **Sec. 18.15.385. Isolation and quarantine.** (a) The department may isolate
 21 or quarantine an individual or group of individuals if isolation or quarantine is the
 22 least restrictive alternative necessary to prevent the spread of a contagious or possibly
 23 contagious disease to others in accordance with regulations adopted by the department
 24 consistent with the provisions of this section and other law.

25 (b) The department shall adhere to the following conditions and standards
 26 when isolating or quarantining an individual or group of individuals:

27 (1) isolation and quarantine shall be by the least restrictive means
 28 necessary to prevent the spread of a contagious or possibly contagious disease that
 29 poses a significant risk to public health; isolation and quarantine may include
 30 confinement to private homes or other private and public premises; absent exceptional
 31 circumstances that would jeopardize public health, a person shall be allowed to choose

1 confinement in the person's home;

2 (2) isolated individuals shall be confined separately from quarantined
3 individuals;

4 (3) the health status of an isolated or quarantined individual shall be
5 monitored regularly to determine whether the individual continues to require isolation
6 or quarantine;

7 (4) if a quarantined individual subsequently becomes infected or is
8 reasonably believed to have become infected with a contagious or possibly contagious
9 disease, the individual shall promptly be removed to isolation;

10 (5) the department shall immediately terminate an isolation and
11 quarantine order when an individual poses no substantial risk of transmitting a
12 contagious or possibly contagious disease to others.

13 (c) The department may authorize a health care practitioner, public health
14 agent, or another person access to an individual in isolation or quarantine as necessary
15 to meet the needs of the isolated or quarantined individual. An individual who enters
16 isolation or quarantine premises with or without authorization of the department may
17 be isolated or quarantined if needed to protect the public health.

18 (d) Before quarantining or isolating an individual, the department shall obtain
19 a written order from the superior court authorizing the isolation or quarantine, unless
20 the individual consents to the quarantine or isolation. The department shall file a
21 petition for a written order under this subsection. The petition must

22 (1) allege

23 (A) the identity of each individual proposed to be quarantined
24 or isolated;

25 (B) the premises subject to isolation or quarantine;

26 (C) the date and time the isolation or quarantine is to begin;

27 (D) the suspected contagious disease;

28 (E) that the individual poses a substantial risk to public health;

29 (F) whether testing, screening, examination, treatment, or
30 related procedures are necessary;

31 (G) that the individual is unable or unwilling to behave so as

1 not to expose other individuals to danger of infection; and

2 (H) that the department is complying or will comply with (b) of
3 this section; and

4 (2) be accompanied by an affidavit signed by a state medical officer
5 attesting to the facts asserted in the petition, including specific facts supporting the
6 allegations required by (1)(D) and (G) of this subsection; the petition shall be
7 personally served according to court rules, along with notice of the time and place of
8 the hearing under (f) of this section.

9 (e) Notwithstanding (d) of this section, when the department has probable
10 cause to believe that the delay involved in seeking a court order imposing isolation or
11 quarantine would pose a clear and immediate threat to the public health and isolation
12 or quarantine is the least restrictive alternative and is necessary to prevent the spread
13 of a contagious or possibly contagious disease, a state medical officer in the
14 department may issue an emergency administrative order to temporarily isolate or
15 quarantine an individual or group of individuals. An emergency administrative order
16 of temporary quarantine or isolation by a state medical officer is enforceable by any
17 peace officer in the state. Within 24 hours after implementation of the emergency
18 administrative order, the department shall notify the superior court by filing a petition
19 under (d) of this section that also alleges that the emergency action was necessary to
20 prevent or limit the transmission of a contagious or possibly contagious disease to
21 others that would pose an immediate threat to the public health. The petition must be
22 signed by a state medical officer.

23 (f) An individual served with a petition under (d) of this section or an
24 emergency administrative order to temporarily isolate or quarantine under (e) of this
25 section has the right to a court hearing. The court shall hold a hearing within 48 hours
26 after a petition is filed. The department may request a continuance of the hearing for
27 up to five days. The court may grant the continuance for good cause shown and in
28 extraordinary circumstances, giving due regard to the rights of the affected
29 individuals, the protection of the public health, the severity of the need for isolation or
30 quarantine, and other evidence. During a continuance, an isolated or quarantined
31 individual shall remain in isolation or quarantine. The court may order the

1 consolidation of individual claims into group claims if the number of individuals
 2 affected is so large as to render individual participation impractical, there are questions
 3 of law or fact common to the individual claims or rights to be determined, the group
 4 claims or rights are typical of the affected individuals' claims or rights, and the entire
 5 group can be adequately represented. The public shall be excluded from a hearing
 6 under this section unless the individual elects to have the hearing open under (g)(2) of
 7 this section.

8 (g) During the hearing, the individual has the right to

9 (1) view and copy all petitions and reports in the court file of the
 10 individual's case;

11 (2) elect to have the hearing open to the public;

12 (3) have the rules of evidence and civil procedure applied so as to
 13 provide for the informal but efficient presentation of evidence;

14 (4) have an interpreter if the individual does not understand English;

15 (5) present evidence on the individual's behalf;

16 (6) cross-examine witnesses who testify against the individual;

17 (7) call experts and other witnesses to testify on the individual's behalf;
