Temporary						

ANALYSIS: (Attach a separate page if necessary)

This legislation creates the Hydrogen Energy Partnership to facilitate the development of a hydrogen fuel industry in Alaska. The partnership would consist of nine members and be housed in the department. The department is charged with securing federal and private funding sources to cover the costs of establishing and operating the partnership. The department does not currently have sufficient resources to actively seek funding. If funding is secured, the department would appoint partnership members, RSA funds to the Alaska Energy Authority and begin to provide staff support.

AIDEA provides staff support for AEA programs.
