ANALYSIS: (Attach a separate page if necessary)

Passage of this Act will have no fiscal impact on the Department of Public Safety. This Act addresses issues relating to the extreme dangers that surround the unlawful manufacture of methamphetamine. It makes it a crime of manslaughter for a person to manufacture or deliver a controlled substance in violation of Alaska law if a person dies as a result of ingesting the substance. It will make it a class C felony to manufacture or attempt to manufacture methamphetamine in a building where one or more children are present, and will increase penalties for processing methamphetamine in solution with the intent to extract.
